Unitholders may avail the facility to receive the latest available NAVs through SMS by submitting a specific request in this regard to the AMC/Mutual Fund. Also, information regarding NAVs can be obtained by the Unit holders / Investors by calling or visiting the nearest ISC.

In case the scheme has exposure in overseas securities/ Mutual Fund units, the NAV will be published post receipt of the Price/ NAV of the overseas investments. Based on the current scheme exposure, the NAV will be published on the website of AMFI i.e (www.amfiindia.com) and Kotak Mahindra Mutual Fund (www.kotakmf.com) by 10.00 a.m of the following business day.

Delay in uploading of NAV beyond 11.00 p.m. on every Business Day shall be explained in writing to AMFI. In case the NAVs are not available before the commencement of business hours on the following Business Day due to any reason, a press release for revised NAV shall be issued.

In terms of SEBI regulations, a complete statement of the Scheme portfolio will be sent to all unitholders, within 5 days of each fortnight and within ten days from the close of each month / half-year whose email addresses are registered with the Mutual Fund.

The portfolio of the scheme (alongwith ISIN) shall also be disclosed on the website of Mutual Fund (www.kotakmf.com) and on the website of AMFI (www.amfiindia.com) on a monthly, fortnightly and half-yearly basis within 5 days of every fortnight & within 10 days from the close of each month/ half-year respectively in a user-friendly and downloadable spreadsheet format.

Load Structure

Entry Load: NIL

In terms of Para 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, no entry load will be charged on purchase / additional purchase / switchin. The commission as specified in the aforesaid circular, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

Exit Load: Nil

No exit load will be chargeable in case of switches made between different plans/options of the scheme.

The AMC reserves the right to change / modify the Load structure of the Scheme, subject to maximum limits as prescribed under the Regulations

Plans available

There will be two plans under the Scheme namely Direct Plan and Regular Plan

Direct Plan: This Plan is only for investors who purchase /subscribe Units in a Scheme directly with the Fund and is not available for investors who route their investments through a Distributor.

Regular Plan: This Plan is for investors who wish to route their investment through any distributor.

The portfolio of both plans will be unsegregated.

Options available under each Plan

- Growth
- ➤ Payout of Income Distribution cum capital withdrawal (IDCW)
- Reinvestment of Income Distribution cum capital withdrawal (IDCW)

Option	Frequency	Record Date
Growth	Nil	N.A.
IDCW	Standard	At discretion of trustees

Under the IDCW option, the Trustee may at any time decide to distribute by way of IDCW, the surplus by way of realized profit and interest, net of losses, expenses and taxes, if any, to Unitholders if, in the opinion of the Trustee, such surplus is available and adequate for distribution. The Trustee's decision with regard to such availability and adequacy of surplus, rate, timing and frequency of distribution shall be final. The Trustee may or may not distribute surplus, even if available, by way of IDCW.

The NAVs of the above option under each plan of the scheme will be different and separately declared; the portfolio of the investments remaining the same.

Investors are requested to note that, where the actual amount of IDCW payout is less than Rs. 500/-, then such IDCW will be compulsorily reinvested.

Default Plan

Investors subscribing under Direct Plan of the Scheme will have to indicate "Direct Plan" against the Scheme name in the application form e.g. "Kotak Long Duration Fund – Direct Plan".

Investors should also indicate "Direct" in the ARN column of the application form.

If the application is received incomplete with respect to not selecting Regular/Direct Plan, the application will be processed as under:

Information in this regard will be provided to Investors as and when the facility is made available.
Dematerialization (Demat)	Unit holders will have an Option to hold the units by way of an Account Statement or in Dematerialized ('Demat') form. Unit holders opting to hold the units in Demat form must provide their Demat Account details in the specified section of the application form/transaction feed. The Applicant intending to hold the units in Demat form are required to have a beneficiary account with a Depository Participant (DP) registered with NSDL / CDSL and will be required to indicate in the application the DP's name, DP ID Number and the Beneficiary Account Number of the applicant held with the DP at the time of purchasing Units. Unitholders are requested to note that request for conversion of units held in Account Statement (non-demat) form into Demat (electronic) form or vice versa should be submitted to their Depository Participants. The demat request to depository must be submitted for all units in a folio. In case Unit holders do not provide their Demat account details or the Demat details provided in the application form are incomplete / incorrect or do not match with the details with the Depository records, the Units will be allotted in account statement mode provided the application is otherwise complete in all respect and accordingly an account statement shall be sent to them

II. INTRODUCTION

A. Risk Factors

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Kotak Long Duration Fund is only name of the scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the contribution of Rs.2,50,000 made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors

The scheme will invest in Debt & Money Market Instruments such that the Macaulay duration of the portfolio is greater than 7 years. This might result in a Higher Volatility. The duration will be managed dynamically using debt & money market instruments.

Risks Associated with Fixed Income and Money Market Instruments:

1) Price-Risk or Interest-Rate Risk:

From the perspective of coupon rates, Debt securities can be classified in two categories, i.e., Fixed Income bearing Securities and Floating Rate Securities. In Fixed Income Bearing Securities, the Coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill.

Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof.

Floating rate securities issued by a government (coupon linked to treasury bill benchmark or a real return inflation linked bond) have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimizing interest rate risk on a portfolio.

2) Credit Risk

Securities carry a Credit risk of repayment of principal or interest by the borrower. This risk depends on micro-economic factors such as financial soundness and ability of the borrower as also macro-economic factors such as Industry performance, Competition from Imports, Competitiveness of Exports, Input costs, Trade barriers, Foreign Currency conversion rates, etc.

Credit risks of most issuers of Debt securities are rated by Independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes.

The highest credit rating (i.e. lowest credit risk) commands a low yield for the borrower. Conversely, the lowest credit rated borrower can raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers' lenders prefer higher rated instruments further justifying the lower yields.

3) Liquidity or Marketability Risk

The corporate debt market is relatively illiquid vis- a- vis the government securities market. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer. Even though the Government Securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information (SAI).

Risk of Rating Migration:

The following table illustrates the impact of change of rating (credit worthiness) on the price of a hypothetical AA rated security with a maturity period of 3 years, a coupon of 10.00% p.a. and a market value of Rs. 100. If it is downgraded to A category, which commands a market yield of, say, 11.00% p.a., its market value would drop to Rs. 97.53 (i.e. 2.47%) If the security is up-graded to AAA category which commands a market yield of, say, 9.00% p.a. its market value would increase to Rs102.51 (i.e. by 2.51%). The figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating.

Rating	Yield (% p.a.)	Market Value (Rs.)
AA	10.00	100.00
If upgraded to AAA	9.00	102.51
If downgraded to A	11.00	97.53

4) Basis Risk:

During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. Where swaps are used to hedge an underlying fixed income security, basis risk could arise when the fixed income yield curve moves differently from that of the swap benchmark curve.

5) Spread Risk:

In a floating rate security, the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

6) Re-investment Risk

Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

7) Sovereign Risk

The Federal Government of a country (i.e. Central Govt. in case of India) is the issuer of the local currency in that country. The Government raises money to meet its Capital and Revenue expenditure by issuing Debt or Discounted Securities. Since payment of interest and principal amount has a sovereign status implying no default, such securities are known as securities with sovereign credit. For domestic borrowers and lenders, the credit risk on such Sovereign credit is near zero and is popularly known as "risk-free security" or "Zero-Risk security". Thus Zero-Risk is the lowest risk, even lower than a security with "AAA" rating and hence commands a yield, which is lower than a yield on "AAA" security.

Risks associated with Securitised Debt:

The Schemes may from time to time invest in domestic securitised debt, for instance, in asset backed securities (ABS) or mortgage backed securities (MBS). Typically, investments in securitised debt carry credit risk (where credit losses in the underlying pool exceed credit enhancement provided, (if any) and the reinvestment risk (which is higher as compared to the normal corporate or sovereign debt). The underlying assets in securitised debt are receivables arising from automobile loans, personal loans, loans against consumer durables, loans backed by mortgage of residential / commercial properties, underlying single loans etc.

ABS/MBS instruments reflect the proportionate undivided beneficial interest in the pool of loans and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. Investments in securitised debt is largely guided by following factors:

- Attractive yields i.e. where securitised papers offer better yields as compared to the other debt papers and also considering the risk profile of the securitised papers.
- Diversification of the portfolio
- Better performance

Broadly following types of loans are securitised:

a) Auto Loans

The underlying assets (cars etc.) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed.

These loans are also subject to model risk. i.e. if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual.

Commercial vehicle loans are susceptible to the cyclicality in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

b) Housing Loans

Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

c) Consumer Durable Loans

- The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult.
- The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

d) Personal Loans

These are unsecured loans. In case of a default, the bank has no security to fall back on. The lender has no control over how the borrower has used the borrowed money. Further, all the above categories of loans have the following common risks:

- All the above loans are retail, relatively small value loans. There is a possibility that the borrower
 takes different loans using the same income proof and thus the income is not sufficient to meet the
 debt service obligations of all these loans.
- In India, there is no ready database available regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record.
- In retail loans, the risks due to frauds are high.

e) Single Loan PTC

A single loan PTC is a securitization transaction in which a loan given by an originator (Bank/ NBFC/ FI etc.) to a single entity (obligor) is converted into pass through certificates and sold to investors. The transaction involves the assignment of the loan and the underlying receivables by the originator to a trust, which funds the purchase by issuing PTCs to investors at the discounted value of the receivables. The PTCs are rated by a rating agency, which is based on the financial strength of the obligor alone, as the PTCs have no recourse to the originator.

The advantage of a single loan PTC is that the rating represents the credit risk of a single entity (the obligor) and is hence easy to understand and track over the tenure of the PTC. The primary risk is that of all securitized instruments, which are not traded as often in the secondary market and hence carry an illiquidity risk. The structure involves an assignment of the loan by the originator to the trustee who then has no interest in monitoring the credit quality of the originator. The originator that is most often a bank is in the best position to monitor the credit quality of the originator. The investor then has to rely on an external rating agency to monitor the PTC. Since the AMC relies on the documentation provided by the originator, there is a risk to the extent of the underlying documentation between the seller and underlying borrower.

f) Bankruptcy of the originator or seller:

Investment decisions are primarily based on the underlying borrowers and also of the originator or seller. Once the originator or seller sells the assets to a special purpose vehicle, the subsequent bankruptcy of seller / originator should not affect the receivables of the fund.

g) Bankruptcy of the Investors Agent:

The underlying special purpose vehicle acts as the Collection and paying agent for the investors. The SPV's are normally trusts and are set up as "bankruptcy remote". i.e since they merely pass on the monies received in their capacity as trusts, the question of their bankruptcy do not arise. Also the bankruptcy of the sponsor does not affect the specific trusts.

h) Bankruptcy of the underlying borrower.

The risks would be similar to the credit risks and mitigants thereof covered elsewhere in the SID.

Risk Associated with Investment in Derivatives Market

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investment.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. There are certain risks inherent in derivatives. These are:

- i. Price Risk: Despite the risk mitigation provided by various derivative instruments, there remains an inherent price risk which may result in losses exceeding actual underlying.
- ii. **Default Risk**: This is the risk that losses will be incurred due to default by counter party. This is also known as credit risk or counterparty risk.
- iii. Basis Risk This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g. mismatch between the maturity date of the futures and the actual selling date of the asset
- **iv. Limitations on upside:** Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- v. Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.
- vi. The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.

The use of an Interest Rate Swap ('IRS') does not eliminate the credit (default) risk on the original investment. While the fixed to floating rate IRS reduces interest rate risk caused by rise in interest rates, it also restricts the profit in case interest rates decline. In case of a floating to fixed rate swap, any subsequent rise in interest rates will result in a loss like in any fixed rate investment. Any IRS carries, the risk of default of the counter party to the swap, which may lead to a loss. Such loss is usually, a small proportion of the notional principal amount of the swap.

Risk associated with Securities Lending:-

In the case of securities lending the additional risk is that there can be temporary illiquidity of the securities that are lent out and the Fund may not be able to sell such lent-out securities, resulting in an opportunity loss. In case of a default by counterparty, the loss to the Fund can be equivalent to the securities lent.

Risk envisaged and mitigation measures for repo transactions:

Credit risks could arise if the counterparty does not return the security as contracted or interest received by the counter party on due date. This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Also operational risks are lower as such trades are settled on a DVP basis.

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to us. Thus the scheme may in remote cases suffer losses. This risk is normally mitigated by better cash flow planning to take care of such repayments

Risk associated with corporate repo debt securities

In Repo transactions, also known as a repo or sale repurchase agreement, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest. A repo is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. The Scheme may invest in repo of corporate debt securities which are subject to the following risks:

a. Counterparty Risk: This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price. The Investment Manager will endeavor to manage counterparty risk by dealing only with counterparties having strong credit profiles assessed through in-house credit analysis or with entities regulated by SEBI/RBI/IRDA.

b. Collateral Risk: In the event of default by the repo counterparty, the schemes have recourse to the corporate debt securities. Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk is mitigated by restricting participation in repo transactions only in AA and above rated money market and corporate debt securities. In addition, appropriate haircuts are applied on the market value of the underlying securities to adjust for the illiquidity and interest rate risk on the underlying instrument.

Risk factors associated with Imperfect Hedging:

Holders of Debt securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts. However, there is a possibility that the hedge may be an imperfect

- Potential loss associated with imperfect hedge using IRFs While using such strategy may reduce interest rate risk caused by rise in interest rates, it also restricts the profit in case interest rates decline.
- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.
- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- Credit Risk The credit risk in derivative transaction is the risk that the counter party will default
 on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF
 derivative transaction.
- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.
- Movement in the prices of securities in the portfolio and the IRF contract used to hedge part of the portfolio may lead to basis risk due to imperfect correlation. Thus, the loss on the portfolio may be different from the gain of the hedged position entered using the IRF.

Example:

Date: 17/09/2023

Spot price of G sec 7.26 G sec 2033: Rs. 100.19

Futures price of IRF Contract G sec 7.26 G sec 2033: Rs.100.29

On 17/09/2023 XYZ bought 2000 GOI securities from spot market at Rs100.19. He anticipates that the interest rate will rise in near future. Therefore, to hedge the exposure in underlying market he may sell IRF for7.26 G sec 2033 maturing on 27 Sep 2023 traded Interest Rate Futures contracts at Rs.100.29

On 27/09/2023 the maturity price of the contract and underlying will be same thereby realising the 10p arbitrage gain

Spot price of GOI Security: Rs. 100.19 Futures Price of IRF Contract: Rs. 100.29

Profit /Loss in underlying market will be (100.19-100.19)*2000 = Rs.00 Loss in the Futures market will be (100.29-100.19)*2000 = Rs. 20000

Therefore the fund will earn a total holding period return of 7.23% + (0.10/10*365) = 7.23+3.65=10.88Not necessary the future is trading above cash for arbitrage to happen.

Risk associated with investment in Government securities and Triparty repo on Government securities or treasury bills:

- The mutual fund is a member of securities segment and Triparty repo on Government securities or treasury bills trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Triparty repo on Government securities or treasury bills trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counter party risks considerably for transactions in the said segments.
- The members are required to contribute towards margin obligation (Initial / Mark to Market etc.) as per bye-laws of CCIL as also an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in discharging their obligation. As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members as determined by CCIL.
- Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).
- CCIL maintains two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty repo on Government securities or treasury bills trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/ default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

Risks associated with Investing in Structured Obligation (SO) & Credit Enhancement (CE) rated securities:

The risks factors stated below for the Structured Obligations & Credit Enhancement are in addition to the risk factors associated with debt instruments.

- Credit rating agencies assign CE rating to an instrument based on any identifiable credit
 enhancement for the debt instrument issued by an issuer. The credit enhancement could be in
 various forms such as guarantee, shortfall undertaking, letter of comfort, pledge of shares listed on
 stock exchanges etc. from the issuers, promoters or another entity. This entity could be either related
 or non-related to the issuer like a bank, financial institution, etc. Hence, for CE rated instruments
 evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the
 issuer rating.
- SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of loan receivables, securities backed by trade receivables, credit card receivables etc. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer.
- Liquidity Risk: SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is low as compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold. Where equity shares are provided as collateral there is the risk of sharp price volatility of underlying securities which may lead to erosion in value of collateral as also low liquidity of the underlying shares which may affect the ability of the fund to enforce collateral and recover capital and interest obligations.
- Credit Risk: The credit risk of debt instruments which are CE rated derives rating based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to inability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. In case of SO transactions, comingling risk and risk of servicer increases the overall risk for the securitized debt or assets backed transactions. Therefore apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.

Risks associated with segregated portfolio

- Investor holding units of segregated portfolio may not able to liquidate their holding till the time realisable value is recovered.
- Security comprising of segregated portfolio may realise lower value or may realise zero value.
- Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risk Factors Associated with investing in Foreign securities:

Subject to necessary approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances.

It is the AMC's belief that investment in foreign securities offer new investment and portfolio diversification opportunities into multimarket and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme may invest only partially in overseas debt securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated under the Regulations or by the RBI from time to time.

Overseas investments will be made subject to any/all approvals, conditions thereof as may be stipulated under the Regulations or by RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and submanagers, transaction costs and overseas regulatory costs.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

Currency Risk:

Investments in overseas debt securities/mutual fund units are subject to currency risk. Returns to investors are the result of a combination of returns from investments and from movements in exchange rates. For example, if the Rupee appreciates vis-à-vis the US \$, the extent of appreciation will lead to reduction in the yield to the investor. However, if the Rupee appreciates against the US \$ by an amount in excess of the interest earned on the investment, the returns can even be negative. Again, in case the Rupee depreciates vis-à-vis the US \$, the extent of depreciation will lead to a corresponding increase in the yield to the investor. Going forward, the Rupee may depreciate (lose value) or appreciate (increase value) against the currencies of the countries where the Scheme will invest.

Exhaustion of overseas limit Risk

The Scheme can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund, within the overall industry limit of US \$ 7 billion or such limits as may be prescribed by SEBI/RBI from time to time. The Scheme therefore may or may not be able to utilise the limit of USD 1 billion due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the scheme can make investments in overseas Exchange Traded Fund (ETF(s) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.

As and when the investment limits at Mutual Fund level/Industry level are exhausted or nearing exhaustion, the scheme may temporarily suspend deployment of funds in overseas funds/securities.

Risk factors associated with investments in Perpetual Debt Instrument / Other Subordinated Debt Instruments

a) Perpetual Debt Instrument

Perpetual debt instruments/bonds are issued by Banks, NBFCs (Non-Bank finance companies) and Corporates to improve their capital profile. Perpetual bonds issued by Banks which are governed by the RBI guidelines for Basel III Capital Regulations are referred to as Additional Tier I (AT1 bonds). NBFCs also issue such instruments as per guidelines issued by RBI. There are no regulatory guidelines for issuance of such bonds by Corporates. These instruments do not have a fixed maturity date. These instruments generally have call option after fixed interval from date of issuance. The key risks associated with these instruments are highlighted below:

1. Risk on coupon servicing

Banks

As per the terms of the instruments, Banks have discretion at all times to cancel distributions/ payment of coupons.

NBFCs

While NBFCs have discretion at all times to cancel payment of coupon, coupon can also be deferred (instead of being cancelled), in case paying the coupon leads to breach of capital ratios.

Corporates

Corporates usually have discretion to defer the payment of coupon. However, the coupon is usually cumulative and any deferred coupon shall accrue interest at the original coupon rate of the Perpetual.

2. Risk of write-down or conversion into equity

Banks

As per extant RBI guidelines, banks have to maintain a Common Equity Tier-1 (CET-1) ratio of minimum 5.5% (to be increase to 6.125%) of Risk Weighted Assets (RWAs), failing which the AT-1 bonds can get written down. Further, AT-1 Bonds are liable to be written down or converted to common equity, at the discretion of RBI, in the event of Point of Non Viability Trigger (PONV). PONV is a point determined by RBI, when a bank is deemed to have become non-viable unless there is a write off/conversion to equity of AT-1 Bonds or a public sector capital injection happens. The write off/conversion has to occur prior to public sector injection of capital.

This risk is not applicable in case of NBFCs and Corporates.

3. Risk of instrument not being called by the Issuer

Banks

The issuing banks have an option to call back the instrument after minimum period of 5 years from the date of issuance and typically annually thereafter, subject to meeting the RBI guidelines. However, if the bank does not exercise the call on first call date, the Scheme may have to hold the instruments for a period beyond the first call exercise date.

NBFCs

The NBFC issuer has an option to call back the instrument after minimum period of 10 years from date of issuance and typically annually thereafter, subject to meeting the RBI guidelines. However, if the NBFC does not exercise the call option the Scheme may have to hold the instruments for a period beyond the first call exercise date.

Corporates

There is no minimum period for call date. However, if the corporate does not exercise the call option, the Scheme may have to hold the instruments for a period beyond the call exercise date.

b) Other Subordinated Debt Instruments (OSDI)

Other Subordinated Debt Instruments (OSDI) are issued by Banks and NBFCs. This instruments are also referred as Tier 2 bonds. These bonds are subordinated to other senior claims of issuing entity. These instruments have a fixed maturity date.

1. Risk of write-down or conversion into equity

Banks

Tier 2 Bonds issued by Banks - under Basel III guidelines of Reserve Bank of India, have a risk of either written off or conversion into common equity, when the PONV trigger is invoked, at the option of the RBI.

This clause is not there in case of NBFCs

Risk associated with investing in Mutual fund units

Investment in units of Mutual Fund scheme involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. As the price / value / interest rates of the underlying securities in which the mutual fund scheme invests fluctuates, the value of units of mutual fund scheme may go up or down. The value of underlying securities may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee. Investment in units of mutual fund scheme is also exposed to risk of suspension of subscriptions / redemptions of the units, change in fundamental attributes etc. Since the Scheme may invest in schemes of Mutual Funds, scheme specific risk factors of each such mutual fund schemes will be applicable to the Scheme portfolio.

All the above factors may not only affect the prices of securities but also the time taken by the Fund for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. The liquidity of the assets may be affected by other factors such as general market conditions, political events, bank holidays and civil strife. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in the SAI.

Backstop facility in form of investment in Corporate Debt Market Development Fund (CDMDF):

CDMDF is set up as a scheme of the Trust registered as an Alternative Investment Fund ('AIF') in accordance with the SEBI (Alternative Investment Funds) Regulations, 2012 ("AIF Regulations"). The objective of the CDMDF is to help to develop the corporate debt market by providing backstop facility to instill confidence amongst the market participants in the corporate debt/bond market during times of market dislocation and to enhance the secondary market liquidity. In times of market dislocation, CDMDF shall purchase and hold eligible corporate debt securities from the participating investors (i.e., specified debt-oriented MF schemes to begin with) and sell as markets recover. The CDMDF will thus act as a key enabler for facilitating liquidity in the corporate debt market and to respond quickly in times of market dislocation. Access to the Fund shall be in proportion to the contribution made to the Fund at a Mutual Fund level (i.e., in the ratio of total units of CDMDF held by all specified debt schemes of each Mutual Fund).

The trigger and period for which the backstop facility will be open shall be as decided by SEBI. Thus this backstop facility will help fund managers of the schemes to better generate liquidity during market dislocation to help the schemes fulfil liquidity obligations under stress situation.

The scheme/s shall invest 25 bps of its AUM as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF'). An incremental contribution to CDMDF shall be made every six months to ensure 25 bps of scheme AUM is invested in units of CDMDF. However, if AUM decreases there shall be no return or redemption from CDMDF.

Further, investments in CDMDF units shall not be considered as violation while considering maturity restriction as applicable for various purposes (including applicable Investment limits) and the calculations of Potential Risk Class (PRC) Matrix, Risk-o-meter, Stress testing and Duration for various purposes shall be done after excluding investments in units of CDMDF. Also, for calculation of asset allocation limits of mutual fund schemes, investment in units of CDMDF shall be excluded from base of net assets.

Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF. CDMDF shall follow the loss waterfall accounting as specified in SEBI circulars and the risk of first loss shall rest with the scheme selling to the CDMDF.

Risk Control/Risk Mitigation:

	<u>, </u>
Type of Risks	Measures/ Strategies to control risks
Debt and Money Market instruments	• Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.
	• Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.
	• Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities
	Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments.
	• Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities
	• Reinvestment Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value.
	• Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt & money market instruments, units of Liquid and Overnight schemes.

Derivatives	The Scheme may invest in derivative for the purpose of hedging, portfolio
	balancing and other purposes as may be permitted under the Regulations.
	Derivatives can be either exchange traded or can be over the counter (OTC).
	Exchange traded derivatives are listed and traded on stock exchanges whereas
	OTC derivative transactions are generally structured between two counterparties.
	Exposure with respect to derivatives shall be in line with regulatory limits and the
	limits specified in the SID.
Securities	The SLB shall be operated through Clearing Corporation/Clearing House of stock
Lending	exchanges having nation-wide terminals who are registered as Approved

	Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous

	without the worries of counter party default. However, the Fund may not be able
	to sell such lent securities during contract period or have to recall the securities
	which may be at higher than the premium at which the security is lent.
Currency	The scheme subject to applicable regulations shall have the option to enter into
.	forward contracts for the purposes of hedging against the foreign exchange
	fluctuations. The Schemes may employ various measures (as permitted by
	SEBI/RBI) including but not restricted to currency hedging (such as currency
	options and forward currency exchange contracts, currency futures, written call
	options and purchased put options on currencies and currency swaps), to manage
	foreign exchange movements arising out of investment in foreign securities.
	All currency derivatives trade, if any will be done only through the stock
	exchange platform.
Repo	This risk is largely mitigated, as the choice of counterparties is largely restricted
Transactions	and their credit rating is taken into account before entering into such transactions.
	Also operational risks are lower as such trades are settled on a DVP basis. In the
	event the counterparty is unable to pay back the money to the scheme as

governed by the RBI guidelines for Basel III Capital Regulations are referred to as Additional Tier I (AT1 bonds). While there are no regulatory guidelines for issuance of PDIs by corporate bodies, NBFCs issue these bonds as per guidelines issued by RBI. The instruments are treated as perpetual in nature as there is no fixed maturity date.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

The measures mention above is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

B. Requirement of Minimum Investors in the Scheme

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over 25% limit. Failure on the part of the said investor to redeem his exposure over 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. Special Consideration

- Prospective investors should review/study SAI along with SID carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscriptions, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of units within their jurisdiction/nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift units are subject, and also to determine possible legal, tax, financial or other consequences of subscribing/gifting to, purchasing or holding units before making an application for units.
- Neither this SID and SAI, nor the units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration and accordingly, any person who gets possession of this SID is required to inform themselves about, and to observe, any such restrictions. It is the responsibility of any persons in possession of this SID and any persons wishing to apply for units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction. Any changes in

- SEBI/NSE/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.
- Kotak Mahindra Mutual Fund/AMC has not authorized any person to give any information or make any representations, either oral or written, not stated in this SID in connection with issue of units under the Schemes. Prospective investors are advised not to rely upon any information or representations not incorporated in the SAI and SID as the same have not been authorized by the Fund or the AMC. Any purchase or redemption made by any person on the basis of statements or representations which are not contained in this SID or which are not consistent with the information contained herein shall be solely at the risk of the investor. The investor is requested to check the credentials of the individual, firm or other entity he/she is entrusting his/her application form and payment to, for any transaction with the Fund. The Fund shall not be responsible for any acts done by the intermediaries representing or purportedly representing such investor.
- If the units are held by any person in breach of the Regulations, law or requirements of any governmental, statutory authority including, without limitation, Exchange Control Regulations, the Fund may mandatorily redeem all the units of any Unit holder where the units are held by a Unit holder in breach of the same. The Trustee may further mandatorily redeem units of any Unit holder in the event it is found that the Unit holder has submitted information either in the application or otherwise that is false, misleading or incomplete.
- In terms of the Prevention of Money Laundering Act, 2002 ("PMLA") the rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML) Laws, all intermediaries, including mutual funds, are required to formulate and implement a client identification programme, and to verify and maintain the record of identity and address(es) of investors.
- If after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall report any such suspicious transactions to competent authorities under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI, furnish any such information in connection therewith to such authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI without obtaining the prior approval of the investor/Unit holder/any other person.
- The AMC and/ or its Registrars & Transfer Agent (RTA) reserve the right to disclose/share Unit holder's details of folio(s) and transaction details thereunder with the following third parties: a) RTA, Banks and/or authorised external third parties who are involved in transaction processing, dispatching etc., of the Unitholder's investment in the Scheme; b) Distributors or sub-brokers through whom the applications are received for the Scheme; c) Any other organizations for compliance with any legal or regulatory requirements or to verify the identity of the Unitholders for complying with anti-money laundering requirements.

III. INFORMATION ABOUT THE SCHEME

Kotak Long Duration Fund

A. Type of the scheme

An open ended debt scheme investing in instruments such that the Macaulay Duration of the portfolio is greater than 7 years. A Relatively High Interest Rate Risk and Relatively Low Credit Risk.

B. What is the investment objective of the scheme?

To generate income / capital appreciation through investments in debt and money market instruments. There is no assurance that the investment objective of the Scheme will be achieved.

C. How will the scheme allocate its assets?

The asset allocation under the Scheme, under normal circumstances, is as follows:

Investments	Indicative Allocation	Risk Profile
Debt & Money market instruments#*^	0-100%	Low – Medium

#Debt instruments shall be deemed to include securitised debts (excluding foreign securitised debt) and investment in securitised debts may be up to 20% of the net assets of the scheme in accordance with clause 1 of Seventh Schedule of SEBI (Mutual Funds) Regulations, 1996.

#Money Market instruments include commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, tri-party repos and any other like instruments as specified by the Reserve Bank of India from time to time.

Pursuant to Para 7.5, 7.6 and 12.25 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 as may be amended from time to time, the scheme may also use various derivative and hedging products from time to time in a manner permitted by SEBI to reduce the risk of the portfolio as and when the fund manager is of the view that it is in the best interest of the unit holders. The scheme may invest upto 50% of its total assets in debt derivatives of which imperfect hedge using Interest Rate Futures (IRF) shall not exceed 20% of the total assets.

As per Para 12.24 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the cumulative gross exposure through debt, debt derivative positions (including fixed income derivatives), repo transactions in corporate debt securities, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.

In accordance with clause 4 of Seventh Schedule of SEBI (Mutual Funds) Regulations 1996 scheme may invest in the units of Mutual Fund schemes of Kotak Mahindra Mutual Fund or any other Mutual Fund.

^{*}The Fund shall have a Macaulay duration of the portfolio greater than 7 years.

Pursuant to para 12.25.3 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash Equivalent shall consist of the following securities having residual maturity of less than 91 days:

- a) Government Securities;
- b) T-Bills; and
- c) Repo on Government securities.

Pursuant to Para 12.18 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, SEBI Circular no. SEBI/HO/IMD/IMD PoD-2/P/CIR/ dated June 08, 2023 and SEBI circular No. SEBI/HO/IMD/IMD PoD-2/P/CIR/2023/87 dated June 13, 2023 and various other circulars issued from time to time, the scheme may participate in the corporate bond repo transactions. The gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net assets of the concerned scheme.

<u>Investment in debt instruments having structured obligations / credit enhancements</u> as per para 12.3 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023: The investment of the Scheme in the following instruments shall not exceed 10% of the debt portfolio

of the Scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme: -

- Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade; and –
- Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade

Subject to SEBI (MF) Regulations and in accordance with para 12.11 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, as amended from time to time, the Trustee may permit the Fund to engage in securities lending and borrowing. At present, since only lending is permitted, the fund may temporarily lend securities held with the Custodian to reputed counter-parties or on the exchange, for a fee, subject to prudent limits and controls for enhancing returns. The Scheme will lend securities subject to a maximum 20% in aggregate, of the net assets of the Scheme and 5% of the net assets of the Scheme in the case of a single intermediary.

The Scheme shall invest in debt instruments with special features viz. subordination to equity (absorbs losses before equity capital) and /or convertible to equity upon trigger of a pre-specified event for loss absorption referred in Para 12.2 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023. The Scheme shall not invest more than 10% of its NAV of the debt portfolio of the scheme in such instruments and not more than 5% of its NAV of the debt portfolio of the Scheme in such instruments issued by a single issuer having special features or within such limits as permitted by SEBI from time to time.

The Scheme may invest in overseas debt securities upto a maximum 20% including units issued by overseas Debt Mutual Funds/ ETFs registered with overseas regulator as may be permissible and described in para 12.19 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, as may be amended from time to time, within the overall applicable limits.

The Scheme can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund, within the overall industry limit of US \$ 7 billion or such limits as may be prescribed by SEBI from time to time. The Scheme therefore may or may not be able to utilise the limit of USD 1 billion due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the scheme can make investments in overseas Exchange Traded Fund (ETF(s) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.

During the NFO, the intended amount for investment in overseas securities is US \$ 5 Million and the intended amount for investment in overseas ETFs is US \$ 1 Million.

The Scheme shall not participate in Credit Default Swaps.

The Scheme does not intend to engage in short selling of securities.

The scheme shall maintain liquid assets in the form of Redemption at Risk (LR-RaR) and Conditional Redemption at Risk (LR-CRaR) which shall be atleast 10% of their net assets of the scheme or as as prescribed at Annexure 1 of AMFI Best Practices Guidelines Circular No.93 / 2021-22 dated July 24, 2021, whichever is higher.

The schemes shall maintain the above two ratios at 100% of the requirement on a daily basis. However, to meet redemptions, AMCs may have to periodically dip into their liquid assets which may result in the liquidity ratio dropping below 100% on those days. To factor in such scenarios, the scheme shall ensure that the ratio is restored to 100% of the requirement by ensuring the net inflows (through net subscription/accruals/ maturity & sale proceeds) into the scheme are used for restoring the ratios before making new purchases outside 'Eligible Assets'. In case the ratio remains below 100% for more than 15 consecutive days, then, this information shall be highlighted to Trustees till such time the said ratio is not restored to 100% of the requirement on weekly basis.

In respect to asset allocation limits as provided in above table, the base shall be considered as net assets excluding the extent of minimum stipulated eligible assets i.e. higher of 10% of net assets or LR-CRaR as prescribed at Annexure 1 of AMFI Best Practices Guidelines Circular No.93 / 2021-22 dated July 24, 2021.

In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/129 dated July 27, 2023 on Investment by Mutual Fund Schemes and AMCs in units of Corporate Debt Market Development Fund, scheme(s) shall invest 25 bps of its AUM as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF') within 10 working days from the request of CDMDF. Further, an incremental contribution to CDMDF shall be made every six months within 10 working days from the end of half year starting from December 2023 to ensure 25 bps of scheme AUM is invested in units of CDMDF. However, if AUM decreases there shall be no return or redemption from CDMDF. Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.

However, in case of winding up of contributing Scheme, inter-scheme transfers within the same Mutual Fund or across Mutual Funds may be undertaken.

Further, investments in CDMDF units shall not be considered as violation while considering maturity restriction as applicable for various purposes (including applicable Investment limits) and the calculations of Potential Risk Class (PRC) Matrix, Risk-o-meter, Stress testing and Duration for various purposes shall be done after excluding investments in units of CDMDF. Also, for calculation of asset allocation limits of mutual fund schemes, investment in units of CDMDF shall be excluded from base of net assets.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the fund follows certain internal norms vis-à-vis limiting exposure to a particular scrip, issuer or sector, etc. within the mentioned restrictions, and these are subject to review from time to time.

Portfolio Rebalancing

Pursuant to Para 2.9 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, in the event of any deviation from mandated asset allocation mentioned above, due to passive breaches, rebalancing period will be Thirty (30) business days. In case the portfolio is not rebalanced within Thirty (30) business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desired, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall not launch any new scheme till the time the portfolio is rebalanced and also not levy exit load, if any on the existing investors of the Scheme. However, at all times the portfolio will adhere to the overall investment objective of the Scheme.

Short Term Defensive Consideration

Subject to Para 1.14of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. In case of any deviation, the portfolio shall be rebalanced within 30 calendar days.

Overview of Debt Market and Money Markets.

The Indian Debt Market has grown in size substantially over the years. The Reserve Bank of India has been taking steps to make the Indian Debt Market efficient and vibrant. Broadly, the debt market is divided in two parts viz. the Money Market and the Debt market. Money market instruments have a tenor of less than one year while debt market instruments have a tenor of more than one year. Money market instruments are typically commercial paper, certificates of deposit, treasury bills, trade bills, repos, interbank call deposit receipts etc. Debt market comprises typically of securities issued by Governments (Central and State), Banks, Financial Institutions, and Companies in the private and public sector, Corporations, Statutory Bodies etc.

The debt securities are mainly traded over the telephone directly or through brokers. The National Stock Exchange of India has a separate trading platform called the Wholesale Debt Market segment where trades put through member brokers are reported.

RBI has introduced the Negotiated Dealing System (NDS) platform for screen-based trading in Government Securities and Money Market instruments. Most of the market participants are now operating through NDS.

Promoted by major banks and financial institutions, The Clearing Corporation of India Ltd. (CCIL) was incorporated on April 30, 2001. The CCIL guarantees the settlement of all trades executed through NDS. The clearing and settlement risks viz., Counter party Credit Risk and Operational Risk are mitigated by CCIL thereby facilitating a smooth settlement process.

The following table gives approximate yields prevailing as on February 14, 2024 on some of the money and debt market instruments. These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing.

Instrument	Yield Range (% per annum)
Inter-bank Call Money	6.65-6.70
91 Day Treasury Bill	7.00-7.05
364 Day Treasury Bill	7.10-7.13
P1+ Commercial Paper 90 Days	7.80-7.85
3-Year Government of India Security	7.10-7.13
5-Year Government of India Security	7.10-7.12
10-Year Government of India Security	7.10-7.12

Generally, for instruments issued by a non-Government entity, the yield is higher than the yield on a Government Security with corresponding maturity. The difference, known as credit spread, depends on the credit rating of the entity. Investors must note that the yields shown above are the yields prevailing on February 14, 2024, and they are likely to change consequent to changes in economic conditions and RBI policy.

However, this limit is not applicable for investments in Bank CDs, Triparty repo on Government securities or treasury bills, G-Secs, T-Bills short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks. Provided that an additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only; Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio. However, the overall exposure in HFCs shall not exceed the sector exposure limit of 20% of the net assets of the scheme. Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme

Investment in Derivatives- Interest Rate Futures (IRFs) (both perfectly and imperfectly hedged):

To reduce interest rate risk in a debt portfolio, scheme may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

(Portfolio Modified Duration*Market Value of the Portfolio)

(Futures Modified Duration* Futures price/PAR)

In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.

Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:

- a) Exposure to IRFs is created *only for hedging* the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.
- b) The scheme is permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (excluding the hedged portions, if any) and the IRF is at least 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of 12.25.9.3 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

- i. The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or
- ii. The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9.
- c) At no point of time, the net modified duration of part of the portfolio being hedged should be negative.
- d) The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of 12.25.9.3 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023

The basic characteristics of the scheme will not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.

The interest rate hedging of the portfolio will be in the interest of the investors.

Investment in Foreign Securities

The Scheme may also invest in suitable investment avenues in overseas financial markets for the purpose of diversification, commensurate with the Scheme objectives and subject to the provisions of Para 12.19 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 and as may be amended from time to time an any other requirements as may be stipulated by SEBI/RBI from time to time

The Scheme may, in terms of its investment objectives with the approval of SEBI/RBI invest in following Foreign Securities:

- ii. Foreign debt securities in the countries with fully convertible currencies, short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies
- iii. Money market instruments rated not below investment grade
- iv. Repos in the form of investment, where the counterparty is rated not below investment grade; repos should not however, involve any borrowing of funds by mutual funds
- v. Government securities where the countries are rated not below investment grad
- vi. Debt Derivatives traded on recognized stock exchanges overseas only for hedging and portfolio balancing with underlying as securities

vii. Short term deposits with banks overseas where the issuer is rated not below investment grade viii. Debt Units/securities issued by overseas mutual funds or unit trusts registered with overseas regulators and investing in

- (a) aforesaid securities,
- (b) Real Estate Investment Trusts (REITs) listed in recognized stock exchanges overseas or
- (c) unlisted overseas securities (not exceeding 10% of their net assets).

Mutual funds can make overseas investments [as stated in point (i) to (x) above] subject to a maximum of US \$1 billion per mutual fund, within the overall industry limit of US \$7 billion or such limits as may be prescribed by SEBI from time to time. Further, the scheme can make investments in overseas Exchange Traded Fund (ETF(s) subject to a maximum of US \$300 million per Mutual Fund, within the overall industry limit of US \$1 billion.

The intended amount for investment in overseas securities is US \$5 Million and the intended amount for investment in overseas ETFs is US \$1 Million., subject to maximum limit as specified in para 12.19 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

The aforesaid investments would be in line with the asset allocation of the scheme.

The Mutual Fund may, where necessary appoint intermediaries as sub-managers, sub-custodians, etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses as stated under Regulation 52 of SEBI (MF) Regulations.

Participation of schemes of Kotak Mahindra Mutual Fund in repo of corporate debt securities: In accordance with Para 12.18 SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, SEBI circular No. SEBI/HO/IMD/IMD PoD-2/P/CIR/2023/85 dated June 08, 2023 and SEBI circular No. SEBI/HO/IMD/IMD PoD-2/P/CIR/2023/87 dated June 13, 2023 and any other circulars issued by SEBI/ RBI from time to time, the Scheme shall participate in repo transactions in corporate debt securities subject to following guidelines:

- The gross exposure of any mutual fund scheme to repo transactions in corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) shall not be more than 10 % of the net assets of the concerned scheme.
- The cumulative gross exposure through repo transactions in corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) along with equity, debt and derivatives, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net assets of the concerned scheme.
- Mutual funds shall participate in repo transactions on following Corporate Debt securities;
 - Listed AA and above rated corporate debt securities and
 - Commercial Papers(CPs) and Certificate of Deposits(CDs).
- In terms of Regulation 44 (2) mutual funds shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months.
- Mutual funds shall ensure compliance with the Seventh Schedule of the Mutual Funds Regulations
 about restrictions on investments, wherever applicable, with respect to repo transactions in corporate
 debt securities including Commercial Papers(CPs) and Certificate of Deposits(CDs). However, for
 transactions where settlement is guaranteed by a Clearing Corporation, the exposure shall not be
 considered for the purpose of determination of investment limits for single issuer, group issuer and
 sector level limits.

The parameters for investment in repos of corporate debt securities as approved by the Board of AMC and Trustee Company are as under:

i) Category of counterparty to be considered for making investment:

All entities (including clearing corporations) eligible for transacting in corporate bond repos as defined by SEBI and RBI shall be considered for repo transactions.

(ii) Credit rating of counterparty to be considered for making investment

The schemes shall participate in corporate bond repo transactions with counterparties having a minimum investment grade rating and is approved by the Investment Committee on a case-to-case basis. In case there is no rating available, the Investment Committee will decide the rating of the counterparty, and report the same to the Board from time to time.

The requirement for credit rating of the counterparty will not be applicable for transactions where settlement is guaranteed by a Clearing Corporation,

(iii) Tenor of Repo and collateral

As a repo seller, the schemes will borrow cash for a period not exceeding 6 months or as per extant regulations. As a repo buyer, the Schemes are allowed to undertake the transactions for maximum maturity upto one year or such other terms as may be approved by the Investment Committee. There shall be no restriction / limitation on the tenor of collateral.

(iv) Applicable haircuts

RBI in its circular dated July 24, 2018 has prescribed the haircut to be applied for repo transactions as follows:

Haircut/margins will be decided either by the clearing house or may be bilaterally agreed upon, in terms of the documentation governing repo transactions, subject to the following stipulations:

- i. Listed corporate bonds and debentures shall carry a minimum haircut of 2% of market value.
- ii. CPs and CDs shall carry a minimum haircut of 1.5% of market value.
- iii. Securities issued by a local authority shall carry a minimum haircut of 2% of market value.

However, the fund manager may ask for a higher haircut (while lending) or give a higher haircut (while borrowing) depending on the prevailing liquidity situation in the market.

Risk envisaged and mitigation measures for repo transactions:

Credit risks could arise if the counterparty does not return the security as contracted or interest received by the counter party on due date. This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Additionally, appropriate haircuts are applied on the market value of the underlying securities based on the tenor and illiquidity of the underlying security. Also operational risks are lower as such trades are settled on a DVP basis.

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to us. Thus the scheme may in remote cases suffer losses. This risk is normally mitigated by better cash flow planning to take care of such repayments.

The above risks will not arise for repo transactions where settlement is guaranteed by a Clearing Corporation.

Investments in securitized debt instruments

How the risk profile of securitized debt fits into the risk appetite of the scheme:

The scheme investment pattern permits investments in debt and money market instruments with extended maturities. Under this the investments could be in the following form of issuances, viz. CPs, CDs, Securitised debt, etc. i.e for the same acceptable levels of risks there could be multiple instruments available to a Fund Manager. Based on the credit assessment of the issuers the Fund Manager may choose to invest in securitized debt.

Our evaluation process for investment in securitized debt is similar to the approach followed for other types of instruments including money market and bonds. We lay emphasis on credit, liquidity and duration risk while evaluating every prospective investment, keeping in mind the investment objectives of the particular scheme.

Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt etc:

The Fund Manager shall do a comprehensive credit assessment of the structure before investment. This includes originator's credit origination standards, track record on asset quality, more specifically its track record in respect the asset class that is being securitized and also the performance of the pools securitised by the originator in the past. No investments will be made in instruments rated below certain grades as prescribed by the investment committee or in unrated instruments. Prior approval of Trustee will be taken, in case of any investments in unrated instruments.

The securitised paper may pertain to a single asset class e.g., car loans or commercial vehicle loans or a combination of different asset classes i.e. car loans, two wheeler loans and commercial vehicle loans. Investment focus is towards diversification in the asset pool in terms of geography, underlying collateral. Although there is no specific guidelines with respect minimum period for which the originator had held the loans in its books), appropriateness of the seasoning (the period for which the originator has held loans on its books) and also the loan to value and instilment to income profile of the pool are important parameters for making investment decision.

In case of single loan securitization, the originator merely transfers the loan existing in his book by way of a single loan sell down. The obligation to repay and service the debt remains with the underlying obligor and hence, it is the obligor whose standalone business and financial risk profile is evaluated. Therefore, the credit rating of a single loan structure mirrors the credit rating of the obligor.

For pool securitization, where the debt repayment is dependent on the underlying pool of borrowers, it is important to evaluate the characteristics of the pool including the type of loan, loan to value ratio, ticket size of loan, geographic distribution etc. and the track record of the originator in terms of volume of securitization activity, historical losses seen in similar pools, stability in cash flow servicing and utilization level of credit enhancement.

Risk Mitigation strategies for investments with each kind of originator:

Apart from the above, risk assessment process includes examination of the credit enhancements offered under the present PTC structure, utilization of credit enhancement in the previous securitization structures of the originator and the trends in credit enhancement utilization of securitization transactions of similar asset classes of other originators. The size & reach of originators, its infrastructure & follow-up mechanism, quality of MIS & the collection process are also considered for each originator.

The nature of the instrument, underlying risks, underlying risk migration perceptions would decide the tenure of the said investments.

There is clear cut segregation of duties and responsibilities with respect to Investment Function and Sales function. Risk assessment and monitoring of investment in Securities Debt is done by a team comprising of credit analyst, fund manager and Head of Fixed Income. The Investment committee also looks into a first time investment in credit, apart from sanctioning overall limits for the same. Investment Decisions are being taken independently based on the above mentioned parameters and investment by the originator in the scheme is based on their own evaluation of the scheme vis a vis their investment objective.

Originator risk can be evaluated and mitigated on the basis of –

- (a) Market position and size of the originator and expertise/niche in financing a particular type of asset.
- (b) Systems and processes established by the originator to address operational risk relating to disbursement, collection and recovery of loans.
- (c) Extent of data disclosed by the originator for the current pool as well as past pools which showcases the data mining capability of the originator.
- (d) Credit enhancement provided based on the pool characteristics, historical performance of past pools and the base case losses assumed by the credit agency.

The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments:

Framework that will be applied while evaluating investment decision relating to a pool securitization transaction:

Note - Kindly note that these are indicative ranges and final figures could vary depending upon the overall characteristics of the transaction and market conditions

In respect of single sell down loans the process would be similar to the one adopted for investing in the issuer directly. Similarly the fund in the normal course of business would not be investing in personal / micro finance pools, unless the levels of comfort arising of the transaction structures, satisfy the investment committee.

The above table is prepared after considering the risk mitigating measures such as Size of the loan, Average original maturity of the pool, Average seasoning of the pool, Loan to Value Ratio, Geographical Distribution and Structure of the pool, default rate distribution & credit enhancement facility. The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same. This framework would be used as a reference for evaluation of investment into any securitized debt. However, each investment would also be evaluated on a case to case basis on its own merits apart from these limits.

Other risk mitigation measures

- (a) Loan to Value Ratio is an important parameter which highlights the underwriting standards of the issuer. Also, lower LTV ratios generally result in higher recoveries in case of default.
- (b) Average seasoning of the pool may vary depending on the asset type. Higher seasoning is preferred as it gives better visibility on delinquency levels in the pool.
- (c) Default rate distribution this is studied using empirical data for the originator. This is also a critical data used by the rating agency in determining the credit enhancement levels to be stipulated.
- (d) Geographical Distribution helps in identifying concentration risk in a particular geography and therefore reduces the default risk.
- (e) Credit enhancement facility is provided in pool securitization transactions and is very important as it is used to absorb credit losses stemming from default in the pool assets. The size of credit enhancement is determined on the basis of the issuer's credit risk profile, the type of asset being securitized and past pool performances.
- (f) Liquidity facility in some cases, in addition to the credit enhancement facility there is also a liquidity facility provided which is used to meet any shortfalls arising from delayed collections or delinquencies in the pool.

Minimum retention percentage by originator of debts to be securitized:

Although there is no specific guidelines with respect minimum retention percentage for which the originator had held the loans in its books), appropriateness of the seasoning (the period for which the originator has held loans on its books) and also the loan to value and installment to income profile of the pool are important parameters for making investment decision.

Minimum retention period of the debt by originator prior to securitization

For single loan securitization, there is currently no regulation for minimum retention period of debt by the originator. Our investment decision is driven by the credit quality of the underlying obligor.

For pool securitization, there is currently no regulation for minimum retention period of debt by the originator. Generally the pool assets we acquire in the form of PTCs have a retention period of 3-6 months by the originator. We follow the extant guidelines pertaining to securitization as set out by the regulator.

The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund:

An investment by the scheme in any security is done after detailed analysis by the Fixed Income team and in accordance with the investment objectives and the asset allocation pattern of a scheme. The

robust credit process ensures that there is no conflict of interests when a scheme invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme. Normally the issuer who is securitizing instrument is in need of money and is unlikely to have long term surplus to invest in mutual fund scheme. Furthermore, there is clear cut segregation of duties and responsibilities with respect to Investment function and Sales function. Investment decisions are being taken independently based on the above mentioned parameters and investment by the originator in the scheme is based on their own evaluation of the scheme vis a vis their investment objectives

Our investment decisions are independent of other business functions and are solely based on the assessment of credit risk, liquidity risk and duration risk pertaining to a particular security.

The resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt

Risk assessment and monitoring of investment in Securities Debt is done by a team comprising of credit analyst, fund manager and Head of Fixed Income. The Investment committee also looks into a first time investment in credit, apart from sanctioning overall limits for the same. Investment Decisions are being taken independently based on the above mentioned parameters and investment by the originator in the scheme is based on their own evaluation of the scheme vis a vis their investment objective.

Apart from monitoring the credit quality of the underlying obligator / originator, for pool securitization transactions we closely monitor the monthly pool performance report which is sent out by the trustee. The reports are tracked for changes in specific pool characteristics which can impact the collection performance and loss levels in the pool.

Interest Rate Swap (IRS)

IRS is a widely used derivative product in the financial markets to manage interest rate risk. A typical transaction is a contract to exchange streams of interest rate obligation/income on a notional principal amount with a counter party, usually a bank. The two interest streams are, fixed rate on one side and floating rate on the other.

Example: Suppose the Fund holds a fixed rate bond of maturity 5 years carrying a fixed interest rate (YTM) of 7.25% p.a. payable half yearly. Such an investment runs the risk of depreciation if interest rates rise. To manage this risk, the Fund can enter into an IRS with another market participant, here the Fund contracts to pay fixed rate, say 6.85% p.a., and receive a floating rate (say overnight MIBOR). This transaction is done for a notional principal amount equal to the value of the investment. By such a contract a fixed rate income is offset by a fixed rate payment obligation leaving only a floating rate income stream. Thus, without actually investing in a floating rate asset, the Fund starts earning a floating rate income, reducing the risk of depreciation associated with the fixed rate investment. Following table summarises the cash flow streams:

Original investment	7.25% p.a.
Pay (Fixed rate)	6.85% p.a. (IRS)
Receive (Floating rate)	MIBOR
Net Flow	MIBOR + 0.40% p.a. (*)

^{* (7.25%} p.a. – 6.85 % p.a.)

The floating rate reference is defined in the swap agreement.

The above example illustrates a case of fixed to floating rate swap. A swap could be done to move from floating rate to fixed rate in a similar fashion.

Please note that the above example is hypothetical in nature and the interest rates are assumed. The actual return may vary based on actual and depends on the interest rate prevailing at the time the swap agreement is entered into.

The Scheme will be allowed to take exposure in Interest Rate Swaps only on a non-leveraged basis. A swap will be undertaken only if there is an underlying asset in the portfolio.

The Scheme may use other derivatives such as interest rate futures, etc, to meet the investment objective of the Scheme, whenever such instruments are available in the market.

Note on Risk:

- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- Credit Risk The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.

Interest Rate Futures (IRFs)

IRF means a standardized interest rate derivative contract traded on a recognized stock exchange to buy or sell a notional security or any other interest bearing instrument or an index of such instruments or interest rates at a specified future date, at a price determined at the time of the contract. Hedging using interest rate futures could be perfect or imperfect, subject to applicable regulations. Currently, exchange traded Interest Rate Futures traded on exchange are standardized contracts based on 10-Year Government of India Security and 91 day Treasury bill. IRF contracts are cash settled. IRFs give an opportunity in the fixed income market to hedge interest rate risk or rebalance the portfolio by using them. By locking into a price, the IRF contract can help to eliminate the interest rate risk. Thus, in order to protect against a fall in the value of the portfolio due to falling bond prices, one can take short position in IRF contracts. Example: Date: Sep 01, 2023 Spot price of the Government Security: Rs.105 Price of IRF- Sep contract: Rs. 105.5 On Sep 01, 2023, Fund buys 100 units of the Government security from the spot market at Rs. 105. Subsequently, it is anticipated that the interest rate will rise in the near future. Therefore to hedge the exposure in underlying Government security, Fund sells Sep Interest Rate Futures contracts at Rs. 105.5. On Sep 15, 2023 due to increase in interest rate: Spot price of the Government Security: Rs. 104 Futures Price of IRF Contract: Rs.104.2 Loss in underlying market will be (105-104)*100 = (Rs. 100) Profit in the Futures market will be (105.50-104.2)*100 = Rs. 130

Imperfect Hedge

Illustration for Imperfect Hedging Scenario 1 and 2

Assumption: Portfolio whose duration is 3 years, is being hedged with an IRF whose underlying securities duration is 10 years

Portfolio Duration: 5 year

Market Value of Portfolio: Rs 100 crs

Imperfect Hedging cannot exceed 20% of Portfolio

Maximum extent of short position that may be taken in IRFs is as per below mentioned formula: Portfolio (security) Modified Duration * Market Value of Portfolio (security) / (Futures Modified Duration * Futures Price/PAR)

Consider that we choose to hedge 20% of portfolio (5 * (0.2 * 100))/(10 * 100/100) = Rs 10 crs

So we must Sell Rs 10 cr of IRF with underlying duration of 10 years to hedge Rs 100 of Portfolio with duration of 5 years.

Scenario 1 If the yield curve moves in a way that the 5 year moves up by 10 bps and the 10 year moves up by 5bps, which means that the short end has moved up more than the long end

Amount of Security in Portfolio (LONG): Rs 100 cr

If yields move up buy 10 bps then the price of the security with a modified duration of 5 years will move down by;

Formula: (Yield movement * Duration) * Portfolio Value ((0.001 * 5) * 1,00,00,00,000)= - 50,00,000

Underlying IRF (SHORT): Rs 10 crs

If yields move up buy 5bps then the price of the security with a duration of 10 years will move down by; Formula: (Yield movement * Duration) * Portfolio Value (-0.0005*10) * 10,00,00,000 = 5,00,000 Since we have sold the IRF, this movement is positive and hence the total loss will be reduced to: -50,00,000 = -45,00,000 = -45,00,000

Due to IRF, the overall impact on the portfolio due to interest rate movement has been reduced. Scenario 2 If the yield curve moves in a way that the 5 year does not move and the 10 year moves down by 5 bps, which means that the yield curve has flattened.

If yield does not move then the price of the security with a duration of 5 years will remain flat: Formula: (Yield movement * Duration) * Portfolio Value (0*5) * 100,00,00,000 = 0

Underlying IRF (SHORT): Rs 10 cr If yields moves down by 5bps then the price of the security with a duration of 10 years will move up by; (0.0005*10)*10,00,00,000 = -5,00,000 In this scenario, the imperfect hedge created on the portfolio would create a loss on the total position.

The fund will use derivatives instruments for the purpose hedging or portfolio rebalancing or for any other stock and / or index derivative strategies as allowed under the SEBI regulations. Note on Risk:

- Potential loss associated with imperfect hedge using IRFs While using such strategy may reduce interest rate risk caused by rise in interest rates, it also restricts the profit in case interest rates decline.
- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.
- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- Credit Risk The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.
- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

• Movement in the prices of securities in the portfolio and the IRF contract used to hedge part of the portfolio may lead to basis risk due to imperfect correlation. Thus, the loss on the portfolio may be different from the gain of the hedged position entered using the IRF.

Hedging

Holders of the GOI securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts. Example:

On 17/09/2023 buy 7.26 G sec 2033: Rs. 100.19 at the current market price of Rs. 100.19

Step 1 - Short the 27/09/2023 IRF futures contract at say price of Rs. 100.29 (assuming IRF trading at premium)

Step 2 – Earn the carry (running yield) of the 10 yr G sec of 7.23% from date of purchase till IRF expiry.

Step 3 - IRF and cash market price will converge on the maturity of the contract hence sell the bond on the maturity.

Under the strategy, the trader has earned a return of

- Arbitrage = (100.29-100.19) / 100.19 * 365 / 10 = 3.65%
- Current yield of G sec = 7.23%
- Arbitrage + current yield of G sec = 10.88 % (Holding period Arbitrage)

(Note: For simplicity accrued interest is not considered for calculation) Assuming IRF is trading at premium the above trade will be done.

Note on Risk:

- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.
- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- Credit Risk The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.
- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

Arbitrage

Arbitrage is the price difference between the bonds prices in underlying bond market and IRF contract without any view about the interest rate movement. One can earn the risk-less profit from realizing arbitrage opportunity and entering into the IRF contract.

Example:

Date: 17/09/2023

Spot price of G sec 7.26 G sec 2033: Rs. 100.19

Futures price of IRF Contract G sec 7.26 G sec 2033: Rs.100.29

On 17/09/2023 XYZ bought 2000 GOI securities from spot market at Rs100.19. He anticipates that the interest rate will rise in near future. Therefore, to hedge the exposure in underlying market he may sell IRF for 7.26 G sec 2033 maturing on 27 Sep 2023 traded Interest Rate Futures contracts at Rs.100.29

On 27/09/2023 the maturity price of the contract and underlying will be same thereby realising the 10p arbitrage gain

Spot price of GOI Security: Rs. 100.19

Futures Price of IRF Contract: Rs. 100.29

Profit /Loss in underlying market will be (100.19-100.19)*2000 = Rs.00Loss in the Futures market will be (100.29-100.19)*2000 = Rs.20000Therefore the fund will earn a total holding period return of 7.23% + (0.10/10*365) = 7.23+3.65=10.88Not necessary the future is trading above cash for arbitrage to happen.

Note on Risk:

- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.
- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.

Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

E. What are the investment strategies?

The Scheme shall follow active investment strategy. The scheme will invest in Debt & Money Market Instruments such that the Macaulay duration of the portfolio is greater than 7 years. The duration would be managed dynamically using debt & money market instruments. Volatility will be high given the long duration of the product. The Scheme shall endeavour to develop a well-diversified portfolio of debt Money Market Instruments.

The Scheme may invest in securitized debt, debt instruments having_structured obligations / credit enhancements, corporate bond repo transactions. The Scheme may also invest in debt instruments with special features for e.g subordination to equity i.e. absorbing losses before equity capital and /or convertible to equity upon trigger of a pre-specified event for loss absorption (for e.g. Additional Tier I bonds and Tier 2 bonds issued under Basel III framework).

The AMC has an internal policy for selection of assets of the portfolio. The portfolio is constructed taking into account ratings from different rating agencies, rating migration, credit premium over the price of a sovereign security, general economic conditions and such other criteria. Such an internal policy from time to time lays down maximum/minimum exposure for different ratings, liquidity norms, and so on. Through such norms, the Scheme is expected to maintain a high quality portfolio and manage credit risk well.

Investments may be made in instruments, which, in the opinion of the Fund Manager are of an acceptable credit risk and chance of default is minimum. The Fund Manager will generally be guided by, but not restrained by, the ratings announced by various rating agencies on the assets in the portfolio.

The Macaulay duration is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price.

The scheme may use Derivatives for the purpose of hedging, portfolio rebalancing and other purposes as may be permitted by SEBI.

The scheme may look to invest overseas for the purpose of diversification in terms of markets and currency. This can help the scheme in achieving higher returns, especially in markets that are experiencing strong economic growth or have undervalued assets. However, given the theme of the scheme, such exposure will be limited to a maximum of 20% of Net assets.

The Scheme may use SLBM for earning additional income for the scheme with a lesser degree of risk.

Scheme may invest in the units of Mutual Fund schemes of Kotak Mahindra Mutual Fund or any other Mutual Funds in terms of the prevailing SEBI (MF) Regulations.

Liquidity Risk Management Tool:

Following are few of the liquidity risk management tools as per AMFI best practise circular 103/2022-23 dated October 12, 2022 which have been adopted by the scheme to manage liquidity risk:

Potential Risk Matrix

As provided in Para 17.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 on Potential Risk Class Matrix (PRC) for debt schemes and various other circulars issued thereon, the scheme shall maintain its portfolio in line with the defined PRC position .i.e. the maximum risk that a scheme will run as per design and a measurement of that risk on a regular basis. In case of any breaches, remedial actions shall be in line with the requirement of the aforementioned circular.

Risk-o-meter

As provided in Para 17.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023on Product Labeling in Mutual Fund schemes – Risk-o-meter and various other circulars issued thereon, the scheme shall calculate and disclose the current risk levels based on its portfolio construct.

Liquidity Risk Management (LRM)

As provided in AMFI Best Practice Guidelines circular dated 24th July 2021 on Prudential norms for Liquidity Risk Management for Open ended Debt schemes (except Overnight Fund, Gilt Fund and Gilt Fund with 10-year constant duration) and various other circulars issued thereon, defines liquidity risk (Liquidity Ratio-Redemption at Risk (LRaR) & Liquidity Ratio-Conditional Redemption at Risk (LCRaR) arising from the liability side of the scheme and shall maintain these on each day by way of eligible assets by the scheme. However, to meet redemptions, the scheme may have to periodically dip

into their liquid assets which may result in the liquidity ratio dropping below the required levels on those days. The scheme shall ensure to take remedial actions in line with the requirement of the aforementioned circular.

Also, back testing analysis is performed which involves capturing actual outflow for each scheme and comparing the same with minimum LRaR & LCRaR required to be maintained by the scheme.

Stress Testing

Stress testing of Interest Rate, Credit and Liquidity Risk at an aggregate portfolio level in terms of its impact on NAV is performed in line with AMFI Best Practice circular dated 12th October 2022 and various other circular issued thereon.

Risk Management Framework (RMF)

As provided in Risk Management Framework circular, the schemes calculates ALM requirement which addresses potential liquidity requirement over a 90-day period and maintains relevant asset side liquidity. Remedial actions, if any required to be taken are based on directions of the Investment Committee.

Swing Pricing

In case of severe liquidity stress at an AMC level or a severe dysfunction at market level, the Swing Pricing guidelines gets triggered which offers the contingency plan in case all else fails.

Portfolio Turnover:

Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. The Scheme has no specific target relating to turnover of securities, given the low liquidity in the debt market. However, the turnover is guided by sale and purchase of securities arising out of the purchase and redemption of Units. Trading opportunities may arise due to changes in system liquidity, interest rate policy announced by RBI, shifts in the yield curve, change or anticipation of change in the credit worthiness or credit rating of securities or any other factors, which may lead to increase in the turnover. The fund manager will endeavour to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. The Scheme has no specific target relating to portfolio turnover.

Product Differentiation:

Duration of the portfolio determines the schemes risk profile. In this regard, Kotak Long Duration Fund is different from other funds offered by Kotak Mahindra Mutual Fund as its portfolio is greater than 7 years.

Stated below are the key features of other open ended debt schemes of Kotak Mahindra Mutual Fund.

F. Fundamental attributes

Following are the fundamental attributes of the scheme, in terms of Regulation 18 (15A) of SEBI (MF) Regulations:

- 1) Type of the scheme: As mentioned under the heading "Type of the Scheme" of Chapter III
- 2) Investment Objective As mentioned under the heading "Investment Objective" of Chapter III
- 3) Investment Pattern: As mentioned under the heading "How will the scheme allocate its assets" of Chapter III
- 4) Terms of Issue:
 - a. Liquidity provisions such as listing, repurchase, redemption. Please refer Chapter number IV "Units and Offer" for disclosures.
 - b. Aggregate fees and expenses charged to the scheme.- Please refer Chapter V "Fees and Expenses" for disclosures.
 - c. Any safety net or guarantee provided. Not Applicable

In accordance with Regulation 25(26) of the SEBI (MF) Regulations, the asset management company shall ensure that no change in the fundamental attributes of the scheme, fees and expenses payable or any other change which would modify the scheme and affect the interest of unit holders, shall be carried out unless-

- (i) a written communication about the proposed change is sent to each unit holder and an advertisement is issued in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the mutual fund is situated; and
- (ii) the unit holders are given an option to exit at the prevailing Net Asset Value without any exit load.

SEBI has reviewed and provided its comments on the proposal.

The trustees shall ensure that no change in the fundamental attributes of any scheme, the fees and expenses payable or any other change which would modify the scheme and affect the interest of the unit holders is carried out by the asset management company, unless it complies with sub-regulation (26) of regulation 25 of SEBI (Mutual Funds) Regulations, 1996.

G. How will the scheme benchmark its performance?

NIFTY Long Duration Debt Index- A-III

The composition of the benchmark is such that, it is most suited for comparing performance of the Scheme.

The benchmark is in line with AMFI published list of Tier 1 benchmarks for open ended debt schemes based on Potential Risk Class Matrix. The Trustees reserves right to change benchmark in future for measuring performance of the scheme and as per the guidelines and directives issued by SEBI from time to time.

I. What are the investment restrictions?

The following investment limitations and other restrictions, inter-alia, as contained in the Trust Deed and the Regulations apply to the Scheme:

1. As per Clause 1 of the Seventh Schedule of MF Regulation, the Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Trustees and the Board of directors of the asset management company.

Within the limits specified in clause 1 of the Seventh Schedule of MF Regulation, a mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA issued by a single issuer; or
- b. 8% of its NAV in debt and money market securities rated AA issued by a single issuer; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to

compliance with the overall 12% limit specified in clause 1 of the Seventh Schedule of MF Regulation.

The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of Credit Rating Agency (CRAs) between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and triparty repo on Government securities or treasury bills.

Provided further that investments within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time.

- 2. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments. It is further clarified that the investment limits are applicable to all debt securities, which are issued by public bodies/institutions such as electricity boards, municipal corporations, state transport corporations etc. guaranteed by either state or central government. Government securities issued by central/state government or on its behalf by the RBI are exempt from the above investment limits.
- 3. The investment of the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the Scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme: -
 - Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade; and –
 - Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade

The above limits shall not be applicable on investments in securitized debt instruments. Investment by the Scheme in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares.

Further, the investment in debt instruments having credit enhancements should be sufficiently covered to address the market volatility and reduce the inefficiencies of invoking of the pledge or cover, whenever required, without impacting the interest of the investors. In case of fall in the value of the cover below the specified limit, AMCs will initiate necessary steps to ensure protection of the interest of the investors.

- 4. The Scheme may invest in another scheme under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same AMC or in schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund.
- 5. The Scheme shall not make any investments in:(a) any unlisted security of an associate or group company of the Sponsors; or

- (b) any security issued by way of private placement by an associate or group company of the Sponsors; or
- 6. The Scheme shall not invest in any Fund of Funds Scheme.
- 7. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:
 - a) such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.)
 - b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
 - c) the same are in line with Para 12.30 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023.
- 8. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:
 - Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.
 - Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
- 9. No term loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or IDCW to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.
- 10. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.
- 11. The mutual fund shall get the securities purchased / transferred in the name of the fund on account of the concerned scheme, where investments are intended to be of long term nature.
- 12. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, the scheme may invest them in short term deposits of schedule commercial banks, subject to Para 12.16 and Para 4.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, as may be amended from time to time. The AMC shall not charge any Investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks, for the Scheme.
- 13. In accordance with Para 12. 9 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023in case of debt schemes, the total exposure to single sector shall not exceed 20% of the net assets of the scheme. However, this limit is not applicable for investments in Bank CDs, Triparty repo on Government securities or treasury bills, G-Secs, T-Bills short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks.
 - Provided that an additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only; Further, an additional exposure of

5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio.

However, the overall exposure in HFCs shall not exceed the sector exposure limit of 20% of the net assets of the scheme.

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme

14. In accordance with Para 12.9.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, in case of debt scheme the total exposure in a group, except and in the group of sponsor and the asset management company, (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.

Further, the investments in debt and money market instruments of group companies of both the sponsor and the asset management company shall not exceed 10% of the net assets of the scheme. Such investment limit may be extended to 15% of the net assets of the scheme with the prior approval of the Board of Trustees.

For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 (Regulations) and amendment thereto.

- 15. In accordance with the guidelines as stated under Para 12.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable:
- i. The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instrument and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

However, the scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

- ii. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.
- iii. Further, investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the conditions as specified in the said circular:
- a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
- b. Exposure of mutual fund schemes in such instruments shall not exceed 5% of the net assets of the schemes.

- c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.
- 16. Investments in Derivatives shall be in accordance with the guidelines as stated under Para 7.5 ,7.5.1.2, 12.25.8.iii, 12.25.1 and 12.25.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 as may be amended from time to time
- 17. The scheme will invest in Repos in Corporate debt as stated in Para 12.18 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023.
- 18. In terms of requirement of Para 12.2of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 prescribing norms for investments in debt instruments with special features viz. subordination to equity (absorbs losses before equity capital) and /or convertible to equity upon trigger of a pre-specified event for loss absorption (Additional Tier I bonds and Tier 2 bonds issued under Basel III framework are some instruments which may have above referred special features), the following limit shall be applicable:
 - a. No Mutual Fund under all its schemes shall own more than 10% of such instruments issued by a single issuer.
 - b. The scheme shall not invest –
 - i. more than 10% of its NAV of the debt portfolio of the scheme in such instruments;
 - ii. more than 5% of its NAV of the debt portfolio of the scheme in such instruments issued by a single issuer.

The above investment limit for a mutual fund scheme shall be within the overall limit for debt instruments issued by a single issuer, as specified at clause 1 of the Seventh Schedule of SEBI (Mutual Fund) Regulations, 1996, and other prudential limits with respect to the debt instruments.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations.

All investment restrictions shall be applicable at the time of making investment.

Apart from the above investment restrictions, the Fund follows certain internal norms within the above mentioned restrictions, and these are subject to review from time to time.

Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supercede/override the provisions of the Trust Deed.

Investments by the AMC in the Scheme

Pursuant to SEBI (Mutual Funds) (Second Amendment) Regulation 2021, AMC shall invest in the scheme based on the risk associated with the scheme as specified in para 6.9 of SEBI master circular SEBI/HO/IMD/IMD PoD1/P/CIR/2023/74 dated May 19, 2023 read with AMFI Best Practice Guidelines Circular 135/BP/100/2022-23 dated 26th April 2022 and any other circulars issued there under, from time to time.

During the NFO period, AMC's investment shall be made during the allotment of units and shall be calculated as a percentage of the final allotment value excluding AMC's investment pursuant to this circular

In addition to investments as mandated above, the AMC may invest in the Scheme subject to the SEBI (MF) Regulations. Under the Regulations, the AMC is not permitted to charge any investment management and advisory services fee on its own investment in the Scheme.

Further, Pursuant to regulation 43A of SEBI (Mutual Funds) Regulations, 1996 and SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/129 dated July 27, 2023 on Investment by Mutual Fund Schemes and AMCs in units of Corporate Debt Market Development Fund, AMC shall make a one-time contribution equivalent to 2 bps of the AUM of the specified debt oriented schemes as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF') within 10 working days of request from CDMDF.

Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.

In case of delay in contribution by the Scheme and AMC, the AMC shall be liable to pay interest at fifteen percent (15%) per annum for the period of delay.

Limits for investment in derivatives instruments

As per Para 12.24 and 12.25 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 on "Review of norms for investment and disclosure by Mutual Funds in derivatives", and SEBI circular no., the limits for exposure towards derivatives are as under:

- 1. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
- 2. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
- 3. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- 4. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
 - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - c. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
- 5. Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
- 6. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.
- 7. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts

Creation of Segregation of Portfolio:

In accordance with para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, provisions have been included for creation of segregated portfolio in the scheme.

Explanations:

- 1. The term 'segregated portfolio' shall mean a portfolio, comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme.
- 2. The term 'main portfolio' shall mean the scheme portfolio excluding the segregated portfolio.
- 3. The term 'total portfolio' shall mean the scheme portfolio including the securities affected by the credit event.

Note 1: As per para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the credit event is considered for creation of segregated portfolio, however as per para 4.4.3.3 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the 'actual default' by the issuer of such instruments shall be considered for creation of segregated portfolio.

Note 2: Portfolio referred herewith will include interest accrued as well.

Terms and conditions in respect of Creation of segregated portfolio in the scheme:

AMC may create segregated portfolio in the scheme and it shall be subject to guidelines specified by SEBI from time to time including the following:

- 1. Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:
 - a. Downgrade of a debt or money market instrument to 'below investment grade', or
 - b. Subsequent downgrades of the said instruments from 'below investment grade', or
 - c. Similar such downgrades of a loan rating.
- 2. In case of difference in rating by multiple CRAs, AMC shall consider the most conservative rating. Creation of segregated portfolio shall be based on issuer level credit events as per above point no. 1 and shall be implemented at the ISIN level.
- 3. Creation of segregated portfolio shall be optional and at the discretion of Kotak Mahindra Asset Management Company Ltd ('AMC'). It should be created only if the Scheme Information Document (SID) of the scheme has provisions for segregated portfolio with adequate disclosures.

Further, in accordance with para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, creation of segregated portfolio in mutual fund schemes has been permitted in respect of unrated debt or money market instruments by mutual fund schemes of an issuer that does not have any outstanding rated debt or money market instruments, subject to the following terms:

a. Segregated portfolio of such unrated debt or money market instruments may be created only in case of actual default of either the interest or principal amount. As per para 4.4 of SEBI

Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, credit event is considered for creation of segregated portfolio, however as per para 4.4.3.3 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, 'actual default' by the issuer of such instruments shall be considered for creation of segregated portfolio.

- b. AMCs shall inform AMFI immediately about the actual default by the issuer. Upon being informed about the default, AMFI shall immediately inform the same to all AMCs. Pursuant to dissemination of information by AMFI about actual default by the issuer, AMCs may segregate the portfolio of debt or money market instruments of the said issuer in terms of para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.
- c. All other terms and conditions as stated in para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 shall remain the same.

For detailed process for creation of segregated portfolio, refer Statement of Additional Information (SAI) of the Mutual Fund.

Swing Pricing Framework

Pursuant to Para 4.10 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, all open ended debt mutual fund schemes (except overnight funds, Gilt funds and Gilt with 10-year maturity funds) are required to follow Swing Pricing Framework:

Mandatory full swing pricing during market dislocation period

Swing pricing refers to a process for adjusting a fund's net asset value (NAV) to effectively pass on transaction costs stemming from net capital activity (i.e., flows into or out of the fund) to the investors associated with that activity during the life of a fund, excluding ramp-up period or termination. In a liquidity-challenged environment, quoted bid/ask spreads and overall trading cost can widen and may not be representative of the executed prices that can be achieved in the market.

In such circumstances, swing pricing can be a useful mechanism to contribute to protect the interests of existing investors, specifically from the dilution of their holdings; and contribute to protect the value of the investors capital.

- a. have High or Very High risk on the risk-o-meter in terms of Para 17.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 (as of the most recent period at the time of declaration of market dislocation); and
- b. classify themselves in the cells A-III, B-III, B-III, C-I, C-II and C-III of Potential Risk Class (PRC) Matrix in terms of Para 17.5 of SEBI Master Circular for Mutual Funds dated May 19, 2023.

Once the market dislocation is declared by SEBI either based on AMFI's recommendation or suo moto, SEBI will notify that swing pricing shall be applicable for a specified period. Subsequent to the announcement of market dislocation by SEBI:

- a. both the incoming and outgoing investors shall get NAV adjusted for swing factor.
- b. Swing pricing shall be made applicable to all unitholders at PAN level with an exemption for redemptions upto Rs. 2 lacs for each mutual fund scheme
- c. The scheme performance shall be computed based on unswung NAV.

d. The below disclosures pertaining to NAV adjusted for swing factor along with the performance impact will be made in scheme wise Annual Reports and Abridged summary and the same may be disclosed on their website prominently only if swing pricing framework has been made applicable for the said mutual fund scheme. The following will be effective from May 01, 2022:

Sr	Period of	Scheme	Unswung	Swing	Whether
No.	applicability of	Name	NAV	factor	optional or
	swing pricing			applied	mandatory

Illustration on swing pricing - market dislocation as announced by SEBI;

Potential Risk Class matrix classification	B-II
Swing Factor applicable	1.25%
Swung NAV(in Rs. Per unit)	19.75 = 20 * (1- 0.0125)

Note;

If there is any exit load applicable as per scheme provisions, the same will be applied on the Swung NAV i.e. Rs. 19.75.

Both the incoming and outgoing investors shall get the Swung NAV i.e. Rs. 19.75 for their subscription and redemption transactions.

This effect of 1.25% on the applicable Unswung NAV shall be given on each day during the market dislocation period specified by SEBI.

The minimum swing factor as given below will be applicable in the scheme and the NAV will be adjusted downwards for both the incoming and outgoing investors.

Investment in Corporate Debt Market Development Fund (CDMDF):

CDMDF shall comply with the Guarantee Scheme for Corporate Debt (GSCD) as notified by Ministry of Finance vide notification no. G.S.R. 559(E) dated July 26, 2023 and SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/128 dated July 27, 2023 and circulars / guidelines/ Letters issued by SEBI and AMFI from time to time, which includes the framework for corporate debt market

development fund. The framework will inclusive of following points-

- a) The CDMDF shall deal only in following securities during normal times:
 - Low duration Government Securities
 - Treasury bills
 - Tri-party Repo on G-sec
 - Guaranteed corporate bond repo with maturity not exceeding 7 days
- b) The fees and expenses of CDMDF shall be as follows:
 - During Normal times: (0.15% + tax) of the Portfolio Value charged on daily pro-rata basis.
 - During Market stress: (0.20% + tax) of the Portfolio Value charged on daily pro-rata basis
 - "Portfolio Value" means the aggregate amount of portfolio of investments including cash balance without netting off of leverage undertaken by the CDMDF.
- c) Corporate debt securities to be bought by CDMDF during market dislocation include listed money market instruments. The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of CRAs between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating.
- d) CDMDF shall follow the Fair Pricing document, while purchase of corporate debt securities during market dislocation as specified in SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/128 dated July 27, 2023 and circulars / guidelines/ Letters issued by SEBI and AMFI from time to time.
- e) CDMDF shall follow the loss waterfall accounting and guidelines w.r.t. purchase allocation and trade settlement of corporate debt securities bought by CDMDF, specified in SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/128 dated July 27, 2023 and circulars / guidelines/ Letters issued by SEBI and AMFI from time to time.
- f) Further, unitholders to take note of the following aspects in respect to investment of Mutual Fund Schemes in CDMDF:
 - CDMDF shall not be considered as an "associate" of any Mutual Fund and investment made in units of CDMDF shall not be considered as investment in associate or group company of any Mutual Fund.
 - Investments in units of CDMDF shall be valued based on the last declared net asset value as disclosed on the website of the CDMDF Fund.
 - The utilization of this facility by specified Mutual Fund schemes are voluntary.

Income Distribution Cum Withdrawal (IDCW) Frequency and Record date	At discretion of Trustees.				

Choice of Default Option If applicant does not indicate the choice between growth and Income Distribution Cum Withdrawal (IDCW) in the application form, then the scheme will accept it as an application for growth option under respective plan. If applicant does not indicate the choice of IDCW sub-option between payout of IDCW and reinvestment of IDCW then the scheme will accept it as an application for IDCW reinvestment. Subject to the receipt of the specified Minimum Subscription Amount **Allotment** for the Scheme, full allotment will be made to all valid applications received during the New Fund Offer. The AMC/ Trustee reserves the right to reject any application inter alia in the absence of fulfillment of any regulatory requirements, fulfillment of any requirements as per the SID, incomplete/incorrect documentation and furnishing necessary information to the satisfaction of the Mutual Fund/AMC. Allotment will be completed within 5 business days after the closure of the New Fund Offer. Allotment of units and dispatch of allotment advice to FPIs will be subject to RBI approval if required. Investors who have applied in non-depository mode will be entitled to receive the account statement of units within 5 Business Days of the closure of the NFO Period. For applicants applying through the ASBA mode, on intimation of allotment by CAMS to the banker the investors account shall be debited to the extent of the amount due thereon. On allotment, units will be credited to the Investor's demat account as specified in the ASBA application form. The Asset Management Company shall, on production of instrument of transfer together with relevant documents, register the transfer within 30 days from the date of such production. The Units of the Scheme held in the dematerialised form will be fully and freely transferable) in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996 as may be amended from time to time and as stated in Para 14.4.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023... Also, when a person becomes a holder of the units by operation of law or upon enforcement of pledge, then the AMC shall, subject to production/submission of such satisfactory evidence, which in its opinion is sufficient, effect the transfer, if the intended transferee is otherwise eligible to hold the units. If application is rejected, full amount will be refunded within 5 Refund working days from of closure of NFO. If refunded later than 5 working days, interest @ 15% p.a. for delay period will be paid and charged to the AMC. **Income Distribution Cum** Growth Option: Withdrawal Under the Growth option, there will be no distribution of income and (IDCW)Policy the return to investors will be only by way of capital gains, if any, through redemption at applicable NAV of Units held by them.

• Income Distribution Cum Withdrawal (IDCW) Option

Under the Income Distribution Cum Withdrawal (IDCW)option, the Trustee may at any time decide to distribute by way of IDCW, the surplus by way of realised profit and interest, net of losses, expenses and taxes, if any, to Unitholders if, in the opinion of the Trustee, such surplus is available and adequate for distribution. The Trustee's decision with regard to such availability and adequacy of surplus, rate, timing and frequency of distribution shall be final. The Trustee may or may not distribute surplus, even if available, by way of IDCW.

The IDCW will be paid to only those Unitholders whose names appear on the register of Unitholders of the Scheme / Option at the close of the business hours on the record date, which will be announced in advance. The Asset Management Company (AMC) is required to dispatch IDCW payments within seven working days from the record date. In case the AMC fails to dispatch the IDCW payments within the stipulated time of seven working days, it shall be liable to pay interest to the unit holders at 15% p.a. or such other rate as may be prescribed by SEBI from time to time.

The IDCW Option will be available under two sub-options – the Payout Option and the Reinvestment Option.

Payout Option: Unitholders will have the option to receive payout of their IDCW by way of IDCW payments or any other means which can be enchased or by way of direct credit into their account.

Reinvestment Option: Under the reinvestment option, IDCW amounts will be reinvested in the IDCW Reinvestment Option at the Applicable NAV announced immediately following the record date. No entry loads will be charged on units allotted as a result of reinvestment IDCW

However, the Trustees reserve the right to introduce new options and / or alter the payout IDCW intervals, frequency, including the day of payout.

When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investor's capital (Equalization Reserve), which is part of sale price that represents realized gains

Cut off timing for subscriptions/ redemptions/ switches

This is the time before which your application (complete in all respects) should reach the official points of acceptance.

Applicable NAV for Purchases/Switch-ins

- 1. In respect of valid applications received upto 3.00 p.m. on a business day and entire amount is available in the mutual fund's account for utilization before the cut off time of the same day closing NAV of the day of receipt of application;
- 2. In respect of valid applications received after 3.00 p.m. on a business day and the entire amount is available in the mutual fund's account for utilization before cut off time of the next business day the closing NAV of the next business day;
- 3. Irrespective of the time of receipt of the application where the entire amount is available in Mutual fund's account for utilization before cut off time on any subsequent business day the closing NAV of such subsequent business day.

The above cut-off timings and applicability of NAV shall be applicable in respect of valid applications received at the Official Point(s) of Acceptance on a Business Day:

- 1. It is clarified that switches will be considered as redemption in the switch-out scheme and purchase / subscription in the switch-in scheme
- 2. Cheques received on a business day may be deposited with the primary bankers of the respective location on the next business day. NAV shall be as per the applicable NAV mentioned above. To enable early sighting of funds by the schemes, investors are requested to avail of electronic facilities like RTGS / NEFT in respect of subscriptions and submit the proof of transfer of funds along with their applications. AMC shall not be responsible for any delay on account of banking clearance or circumstances which are beyond the control of AMC.
- 3. The revised provisions for applicability of NAV based on realization of funds will be applicable to all types of investment including various systematic investments routes (viz, SIP, STP, Transfer of IDCW etc.) as may be offered by the Scheme from time to time.

Applicable NAV for Redemption/ Switch outs

- a) where the application received upto 3.00 pm closing NAV of the day of receipt of application; and
- b) an application received after 3.00 pm closing NAV of the next business day.

Further, where the AMC or the Registrar has provided a facility to the investors to redeem /switch-out of the Scheme through the medium of Internet by logging onto specific web-sites or any other facilities offered by the AMC and where investors have signed up for using these facilities, the Applicable NAVs will be as provided above.

Technical issues when transactions are processed through online facilities/ electronic modes.

The time of transaction done through various online facilities / electronic modes offered by the AMC, for the purpose of determining the applicability of NAV, would be the time when the request for

purchase / SIP/ sale / switch of units is received in the servers of AMC/RTA. In case of transactions through online facilities / electronic modes, there may be a time lag of few seconds or upto 1-7 banking days between the amount of subscription being debited to investor's bank account and the subsequent credit into the respective Scheme's bank account. This lag may impact the applicability of NAV for transactions where NAV is to be applied, based on actual realization of funds by the Scheme. Under no circumstances will Kotak Asset Management Company Limited or its bankers or its service providers be liable for any lag / delay in realization of funds and consequent pricing of units. The AMC has the right to amend cut off timings subject to SEBI (MF) Regulations for the smooth and efficient functioning of the Scheme. Representation of SIP transaction which have failed due to technical reasons will also follow same rule.

Where can the applications for purchase/redemption switches be submitted?

Applications can be made either by way of a "Regular Application or Transaction slip" along with a cheque/DD. The Fund may introduce other newer methods of application which will be notified as and when introduced. Investors should complete the Application Form and deliver it along with a cheque/draft (i.e. in case of "Regular Application") at any of the official points of acceptance of transactions listed below:

First time investments can be made only by way of duly filled in application form.

At the Official points of acceptance of transactions as given on the back cover of this document.

For investments through switch transactions, transaction slip with application forms can be submitted at the AMC branches, CAMS Investor Service Centres and branches, given in the last page

Further in line Para 16.2 SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 it has been decided to allow investors to directly access infrastructure of the recognised stock exchanges to purchase mutual fund units directly from Mutual Fund/ Asset Management Companies. SEBI circular has advised recognised stock exchanges, clearing corporations and depositories to make necessary amendment to their existing byelaws, rules and/or regulations, wherever required.

Redemption/Switch requests: Where Units under a Scheme are held under both Direct Plan and Regular Plan, investors should clearly mention the plan from which redemption/switch requests are to be processed. If the investor does not mention the plan then the application may be rejected.

Direct Plan

Regular Plan: This Plan is for investors who wish to route their investment through any distributor.

Direct Plan: This Plan is only for investors who purchase /subscribe Units in a Scheme directly with the Fund and is not available for investors who route their investments through a Distributor.

The portfolio of both plans will be unsegregated.

All characteristics such as Investment Objective, Asset Allocation Pattern, Investment Strategy, risk factors, minimum investment amount, additional investment amount, availability of options including sub options, SIP/STP/SWP/Transfer of IDCW Plan/FSIP facilities offered and terms and conditions including load structure will be the same for Direct Plan and Regular Plan. Except that

- (a) Switch of investments from Regular Plan, where the transaction has been received with broker code to Direct Plan shall be subject to applicable exit load, if any.
- (b) No exit load shall be levied:
 - in case of switch of investment from Regular Plan, where transaction has been received without broker code to Direct Plan.
 - in case of switch of investments from Direct Plan to Regular Plan.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

Investments through systematic routes:

In case of Systematic Investment Plan (SIP) / Systematic Transfer Plan (STP)/, etc registered prior to the January 1, 2013 without any distributor code under the Regular Plan, installments falling on or after February 1, 2013 will automatically be processed under the Direct Plan. However, investors who intend to continue with their future installments in Regular Plan, may opt to do so by submitting a written request to AMC before February 1, 2013.

Investors who had registered for SIP/STP facility prior to January 1, 2013 with distributor code and wish to invest their future installments into the Direct Plan, shall make a written request to the Fund in this behalf. The Fund will take at least 15 days to process such requests. Intervening installments will continue in the Regular) Plan.

The terms and conditions of the existing registered enrolment shall continue to apply.

Redemption/Switch requests: Where Units under a Scheme are held under both Direct Plan and Regular Plan, investors should clearly mention the plan from which redemption/switch requests are to be processed. If the investor does not mention the plan then the application may be rejected.

Transaction Charges

Pursuant to Para 10.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, transaction charge per subscription of Rs. 10,000/- and above be allowed to be paid to the distributors of the Kotak Mahindra Mutual Fund products. The transaction charge shall be subject to the following:

- a. For existing investors (across mutual funds), the distributor shall be paid Rs. 100/- as transaction charge per subscription of Rs. 10,000/- & above.
- b. For first time investors, (across Mutual Funds), the distributor may be paid Rs. 150/- as transaction charge for subscription of Rs.10,000/- & above.
- c. The transaction charge shall be deducted by Kotak AMC from the subscription amount & paid to the distributor (will be subject to statutory levies, as applicable) & the balance amount shall be invested.
- d. In case of Systematic Investment Plan(s), the transaction charge shall be applicable only if the total commitment through SIPs amounts to Rs.10,000/- & above. In such cases the transaction charge shall be recovered in first 4 successful installments.

Identification of investors as "first time" or "existing" will be based on Permanent Account Number (PAN) at the First/ Sole Applicant/ Guardian level. Hence, Unit holders are urged to ensure that their PAN / KYC is updated with the Fund. Unit holders may approach any of the Official Points of Acceptances of the Fund i.e. Investor Service Centres (ISCs) of the Fund/ offices of our Registrar and Transfer Agent, M/s. Computer Age Management Services Ltd in this regard.

The statement of accounts shall clearly state that the net investment as gross subscription less transaction charge and give the number of units allotted against the net investment.

Transaction charges shall not be deducted/applicable for:

- Transaction other than purchases/subscriptions such as Switch/Systematic Transfer Plan (STP)/ Transfer of IDCW Plan ,etc.;
- 2) Purchases/Subscriptions made directly with the Fund without any ARN code.
- 3) Transactions carried out through the stock exchange platforms.

Further as per Para 10.5.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023,

distributors shall now have the option to either opt in or opt out of charging transaction charge based on the type of product.

Transactions Through "Channel Distributors"

Investors may enter into an agreement with certain distributors/ Registered Investment Advisers (RIAs) (with whom AMC also has a tie up) referred to as "Channel Distributors" who provide the facility to investors to transact in units of mutual funds through various modes such as their website / other electronic means or through Power of Attorney in favour of the Channel Distributor, as the case may be. Under such arrangement, the Channel Distributors will aggregate the details of transactions (viz. subscriptions/redemptions/switches) of their various investors and forward the same electronically to the AMC / RTA for processing on daily basis as per the cut-off timings applicable to the relevant schemes. The Channel Distributor is required to send copy of investors' KYC Proof and agreement entered into between the investor & distributor/RIA to the RTA (one time for central record keeping) as also the transaction documents / proof of transaction authorization as the case may be, to the AMC / RTA as per agreed timelines. In case KYC Proof and other necessary documents are not furnished within the stipulated timeline, the transaction request, shall be liable to be rejected. Normally, the subscription proceeds, when invested through this mode, are by way of direct credits to the specified bank account of the Fund. The Redemption proceeds (subject to deduction of tax at source, if any) and payouts of IDCW, if any, are paid by the AMC to the investor directly through direct credit in the specified bank account of the investor or through issuance of payment instrument, as applicable. It may be noted that investors investing through this mode may also approach the AMC / Official Point(s) of Acceptance directly with their transaction requests (financial / nonfinancial) or avail of the online transaction facilities offered by the AMC. The Mutual Fund, the AMC, the Trustee, along with their directors, employees and representatives shall not be liable for any errors, damages or losses arising out of or in connection with the transactions undertaken by investors / Channel Distributors through above mode.

Pursuant to Para 15.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, Mutual funds/ AMC will adhere to the due diligence of distributors.

Systematic Investment Plan (SIP):

This facility enables investors to save and invest periodically over a longer period of time. It is a convenient way to "invest as you earn" and affords the investor an opportunity to enter the market regularly, thus averaging the acquisition cost of Units. Any Unitholder can avail of this facility subject to certain terms and conditions contained in the Application Form. The Fundamental Attributes and other terms and conditions regarding purchase/redemption, price and related matters are the same as contained in this SID.

The first SIP can be for any date of the month on which a NAV is declared in the scheme. In respect of the second and all subsequent SIPs, investors can select any one date among 1st to 31st of the chosen frequency as the SIP Date (in case the chosen date fall on non-Business day the transaction will be effected on the next Business day of the scheme), and can also choose the SIP frequency as daily, weekly, monthly, r quarterly, half-yearly and annually subject however, to the condition that there shall be a minimum gap of 28 days between the first and the second SIP. The aforesaid minimum gap shall be applicable only for SIPs registered via direct / auto debit. The minimum SIP installment amount is Rs. 100/. In case the SIP date is not selected for the aforesaid facility, 7th of every month/quarter will be treated as the default date.

The SIP payments can be made either by issue of Post Dated Cheques or by availing the Auto Debit Facility through ECS (available in select locations only) or by availing the Direct Debit Facility / Standing Instructions Facility (Unitholders may check with their bankers for availability of this facility). Investors may register for SIP through One Time Mandate (OTM) for payment towards any future purchase transactions received through any mode i.e. physical or electronic.

AMC may choose any mode such as NACH/ ECS/ Direct Debit/ Standing Instruction (SI)/ OTM as per arrangements with banks or payment aggregators.

However, the first investment in SIP through the electronic mode (other than OTM) needs to be made compulsorily by issuance of a cheque from the account from which the SIP instalment debit is requested. Investors can also submit SIP applications along with cancelled cheque leaf of the account from where the investor intends to commence the SIP.

If the first SIP investment is through a demand draft or pay order or the initial investment cheque is drawn from a bank account, other than the bank account mentioned in the SIP mandate, it is advisable to the investor has to ensure that the bank details and signatures are attested by the banker of the bank from where the SIP is initiated. Alternatively the investors can provide a copy of the cancelled cheque leaf of the bank account from where the investor intends to do the SIP.

The load structure applicable for each installment will be as per the load structure applicable at the time of registration of SIP. Changes in

load structure effected by the AMC after that date may not be applicable unless stated specifically.

SIP facility is available on stock exchange platform also please refer to the information mentioned under "Special Consideration".

SIP Top Up Facility:

Description: It is a facility whereby an investor has an option to increase the amount of the SIP Installment by a fixed amount at predefined intervals. This will enhance the flexibility of the investor to invest higher amounts during the tenure of the SIP.

Frequency: Half Yearly Basis and Yearly Basis.

Functionality of frequency:

The installment amount can be increased on a Half-Yearly and/or Yearly basis i.e. on completion of 6 months/1 year from the commencement of the first SIP.

SIP	SIP Top Up	Default	Min Amount
Frequency	Frequency		
Monthly	Half Yearly /	Yearly	Rs. 100 & in
	Yearly		multiples of Rs.
			100 thereof
Quarterly	Half Yearly /	Yearly	Rs. 100 & in
	Yearly		multiples of Rs.
			100 thereof

Fixed Top-Up option or Variable Top Up option - SIP Top-Up facility with Fixed Top Up option or Variable Top Up option will be available to the investors, wherein the amount of SIP can be increased at fixed intervals.

Basic Terms and conditions are as follows:

- Investors can opt for SIP Top up facility with Fixed Top-Up option or Variable Top-Up option, wherein the amount of SIP can be increased at fixed intervals. The Fixed Top-Up amount shall be in multiples of Rs.100/- and thereafter.
- The Variable Top-Up option shall be applicable for all schemes of Kotak Mahindra Mutual Fund (except for Kotak ELSS Tax Saver Fund)
- Investors can opt for SIP Top up facility with Fixed Top-Up option for Kotak ELSS Tax Saver Fund for minimum application amount Rs. 500/- and in multiples of Rs. 500/- thereafter.

The Trustee/AMC reserves the right to change/modify the provisions mentioned facility at a later date.

Systematic Withdrawal Plan:

This facility enables the Unitholders to withdraw (subject to deduction of tax at source, if any) sums from their investments in Scheme at any date through a one-time request. The withdrawals can be made at any date under Daily/Weekly/Monthly/ Quarterly/ Half Yearly and Annual frequency. In case any of these days fall on non-business day, the transaction will be processed on the next business day of the scheme. SWP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of SWP. In case the SWP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the SWP registration request received for a period lesser than 7 days in the interest of unit holders.

Example: for Monthly SWP if the SWP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this SWP will be from 7th February onwards.

This facility is available in two options to the Unitholders:

Fixed Option: Under this option, the Unitholder can seek redemption of a fixed amount of not less than Rs. 1000 from his Unit account. In this option the withdrawals will commence from the Start Date (being one of the dates indicated above) mentioned by the Unitholder in the

Application Form for the facility. The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. If the net asset value of the units outstanding on the withdrawal date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs. 1000 after processing of the last SWP installment then the entire amount will be processed along the last SWP installment.

Appreciation Option: Under this option, the Unitholder can seek redemption of an amount equal to a periodic appreciation on the investment. The Unitholder redeems only such number of Units, which when multiplied by the Applicable NAV is, in amount terms equal to the appreciation in his investment over the last month / quarter. The investor would need to indicate in his systematic withdrawal request, the commencement / start date from which the appreciation in investment value should be computed. The withdrawal will commence after one month/quarter (as requested by the investor) from the commencement / start date mentioned by the Unitholder in the Application Form. The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. In case the investor purchases additional Units, the withdrawal amount would include the appreciation generated on such Units as well. In the absence of any appreciation, the redemption under this option will not be made.

For both fixed and appreciation option the provision of minimum redemption amount will not be applicable for redemption made under this facility.

Systematic Transfer Plan (STP):

This facility enables the Unitholders to switch an amount from their existing investments in a Scheme/Plan/Option to another Scheme/Plan/Option of the Fund, which is available for investment at that time, at periodic intervals through a one-time request. The switch can be made weekly, monthly or quarterly. Under this facility the switch by the Unitholders should be within the same account/ folio number. The transfers can be made either Daily or Weekly or Monthly or Quarterly (on any business day). The amount so switched shall be reinvested in the other scheme / plan and accordingly, to be effective, the systematic transfer must comply with the redemption rules of transferor scheme and the issue rules of transferee scheme (e.g. exit / entry load etc)

STP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of STP. In case the STP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle.

Example: for Monthly STP if the STP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this STP will be from 7th February onwards.

This facility offers two options to the Unitholders:

Fixed Option: Under this option, the Unitholder can switch fixed amount of not less than Rs. 1000/- from his Unit account. In this option the switch will commence from the Start Date mentioned by the Unitholder in the application form for the facility. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be created at the Applicable NAV of such Scheme/Plan/Option on the respective dates. If the net asset value of the units outstanding on the transfer date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last STP installment, then the entire amount will be processed along the last STP installment.

Appreciation Option: Under this option, the Unitholder can seek switch of an amount equal to the periodic appreciation on the investment. Under this option the Unit holder switches only proportionate number of Units, which when multiplied by the applicable NAV is, in amount terms equal to the appreciation in the investment over the last month/quarter.

For both Fixed and appreciation option the provision of minimum redemption and minimum investment amount / units will not be applicable for transfer / switch transactions made under this facility for both switch out and switch in schemes.

The investor has to mention a "Start Date". The first switch will happen after one month/quarter from the start date. In case the investor purchases additional Units, the amount to be switched would be equal to the appreciation generated on such Units. In the absence of any appreciation as mentioned above, the switch under this option will not be made. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be allotted at the Applicable NAV of such Scheme/Plan/Option on the respective dates.

Transfer of Income Distribution cum capital withdrawal (IDCW) Plan:

Transfer of IDCW Plan is a facility whereby the unit holders under the IDCW Options (other than Daily Reinvestment Sub-option) of the open ended Schemes of KMMF can opt to transfer their IDCW to any other Investment option (other than Daily Reinvestment Sub-option) under any other open ended schemes of KMMF. Transfer of IDCW

Plan facility will be available to unit holder(s) holding units in non-demat form under the IDCW Option of the Transferor Schemes.

Under the Transfer of IDCW Plan facility investors cannot transfer their IDCW into certain category of transferee schemes viz, close ended Schemes, Exchange Traded Funds (ETFs), and Kotak ELSS Tax Saver Fund

Under Transfer of IDCW Plan, IDCW as & when declared (as reduced by the amount of applicable statutory levy) in the transferor scheme (subject to minimum of Rs.500/-) will be automatically invested without any exit load into the transferee scheme, as opted by the Unit holder. Such transfer will be treated as fresh subscription in the transferee scheme and invested at the Applicable NAV of the Transferee Scheme. If the IDCW amount in the Transferor Scheme is less than Rs.500/- the IDCW will be automatically reinvested in the Transferor Scheme itself and hence will not be transferred. The provision for 'Minimum Application Amount' specified in the respective transferee scheme's SID will not be applicable under Transfer of IDCW Plan

Enrolment under the Transfer of IDCW Plan facility will automatically override any previous instructions for 'Payout of IDCW' or 'Reinvestment of IDCW' option in the transferor scheme. No Exit Load will be levied on units allotted in the Transferee Scheme under the Transfer of IDCW Plan

Unit holders who wish to enroll for the Transfer of IDCW Plan facility are required to fill Transfer of IDCW Plan Enrollment Form available with the ISC's, distributors/ agents and also available on the website www.kotakmf.com

The request for enrolment or cancellation for Transfer of IDCW Plan must be submitted at least 7 days prior to the Record Date for the IDCW. In case of the condition not being met, the enrolment would be considered valid from the immediately succeeding Record Date of the IDCW, provided the difference between the date of receipt of a valid application for enrolment under Transfer of IDCW Plan and the next Record Date for the IDCW is not less than 7 days.

The AMC / Trustee reserve the right to change/ modify the terms and conditions of the Transfer of IDCW Plan on a prospective basis.

Unitholders of the Scheme have the option to switch-in or switch-out all or part of their investment in the Scheme/ Plan/ Option to any other Option of the Scheme or to any other Scheme / Plan/ Option of the Fund.

A switch has the effect of redemption from a Scheme/Plan/Option and a purchase in the other Scheme/Plan/Option to which the switching has been done and all the terms and conditions pertaining to redemption and purchase of the Units of the respective Scheme shall apply to a switch, unless otherwise specified.

Switch is affected by redeeming Units from the Scheme/ Plan/Option and investing the net proceeds in the other Scheme/Plan/Option.

Long Term Income Facility (LTI)

Long Term Income (LTI) is only a facility for regular withdrawal from the Scheme. This facility will allow investors to redeem a fixed sum of money on monthly/ quarterly basis at the prevailing Net Asset Value (NAV) within the range of 6% p.a. to 10% p.a. (in multiples of 0.5%) of the investment amount. The percentage of withdrawal will be selected by investor.

LTI facility is only available under the growth option only. Investors shall be required to submit LTI registration request at least 15 days prior to the date of 1st instalment. Minimum amount of investment required for availing the LTI facility is Rs.1 lakh.

Investors can opt for this facility and withdraw their investments systematically on a Monthly/ Quarterly basis. Withdrawals will be made/ effected on the 1st/7th /14th /21st / 25th of every month/ every quarter and would be treated as redemptions. In case the aforesaid date is a holiday, then it would be effected on next business day.

The applicant has the right to discontinue the LTI at any time, if he / she so desires, by providing a written request at any of the Kotak Mahindra Mutual Fund branches or Registrar's branches. Request for discontinuing LTI shall be subject to an advance notice of 15 days.

Daily frequency under Systematic Transfer Plan Facility:

Daily frequency ("Daily STP") has been introduced in addition to existing frequencies available under "Fixed Option" of Systematic Transfer Plan facility.

Terms and conditions of Daily STP are as follows:

Applicability:

- 1. Daily STP is only available under Fixed amount Option (Fixed STP) and will not be applicable under Capital appreciation STP (Variable STP).
- 2. An investor can select this facility whereby the investor chooses to transfer on a periodic basis a pre-determined amount from any "Source Scheme" into any "Target Scheme".
- 3. In case the Investor fails to mention the frequency for the STP option in the form, then the default option will be considered as monthly frequency.
- 4. The STP will be processed subject to the terms of the Target scheme.
- 5. This frequency will be available under all the "eligible schemes" of Kotak Mahindra Mutual Fund.

Eligible Schemes	Source Scheme	Kotal Long Duration Fund, Daily STP will be available for free units only.				
	Target Scheme	All Open Ended Schemes of Kotak Mahindra Mutual Fund except Exchange Traded Funds.				

Transfer of Funds:

- 1. Minimum Instalment amount to be transferred through this facility should be at least Rs. 6,000 per year or that which matches the minimum investment amount of the said schemes whichever is higher for the said year.
- 2. Minimum amount to transfer under Daily STP: Minimum 12 transfers of Rs. 500/- each and in multiples of Rs. 100/- thereafter.
- 3. Default amount: If investor fails to mention the STP Amount then the default value should be taken as Rs. 500 (minimum transfer amount).

Schemes available for Daily STP:

- 1. It shall be the responsibility of the investor to ensure that sufficient balance (free from any Lock-in or encumbrances) is available in the Source Scheme account on the date of transfer, failing which the transfer will not be processed to the extent of available balance in the source scheme's account.
- 2. If the plan/option of the Source scheme is not mentioned and there is only one plan/option available in the folio, the STP will be processed from that plan/option.
- 3. If investor carries investments under multiple schemes / plans / options and does not mention the Source Scheme along with plans and options, then such request will be rejected.
- 4. In case plan and option in Target Scheme for STP are not selected by the investor, then the default option/ plan for the Target scheme shall be considered as per SID.

Other Terms and Conditions:

- 1. Investor need to clearly mention the "Transfer Period from" and "Transfer Period To" in the STP request Form. In case, the investor fails to specify the "Transfer Period from" the STP will start from the 7th day from the date of receipt of valid registration form.
- 2. In case, the investor fails to specify the "Transfer Period To" under Daily STP, STP shall continue to be triggered perpetually until further valid instructions from the investor or until the outstanding balance in "Source scheme" does not cover the Daily STP transfer amount.
- 3. If the available balance falls below the minimum amount of the specified triggered value, the available balance in the Source scheme will get triggered and future STP will be ceased.
- 4. STP registration from the existing investment (in the Source Scheme) will start from the 7th day from the date of receipt of valid registration form. If the STP form is received along with fresh investment, then the STP will start from the 7th day from the date of realisation of the investment amount with the valid registration form.
- 5. In case the specified date is a non-business day for either the Source Scheme or the Target Scheme, the STP will be processed on the following business day for both the schemes. When the value of STP is more than Rs. 2 lakhs or the Target

- scheme is a liquid fund then the allotment in the Target scheme will be processed based on the utilisation/ realisation of funds from Source scheme (for more details refer NAV applicability clause for respective Target scheme).
- 6. In case the STP commencement date is less than 7 days from the date of submission of registration form, the same will commence from the 7th day from the date of receipt of valid registration form. The AMC reserves the right to process the STP registration request received for a period lesser than 7 days in the interest of unit holders.
- 7. An investor can discontinue his STP facility by giving 7 days prior notice in writing to the Registrars (CAMS) office or at any other point of service.

Variable Transfer Plan – It is a facility wherein an investor under a source scheme can opt to transfer variable amounts linked to the value of his investments on the date of transfer at pre-determined intervals from source scheme to the growth option of target scheme.

It would be suitable for investors who are looking to invest higher when the NAVs are lower and a fixed amount when the NAVs are higher and take the benefit of rupee cost averaging.

Terms and conditions of VTP are as follows:

- 1. An individual VTP Enrolment Form should be filled for each Scheme / Plan / Option.
- 2. VTP will be available in the following specified schemes:

Source	Kotak Long Duration Fund, VTP will be available for
Schemes	free units only.
Target	All open ended equity schemes, open ended hybrid
Schemes	schemes and open ended fund of fund schemes
	excluding exchange traded funds and Kotak ELSS Tax
	Saver Fund.

3. Calculation of VTP:

The amount to be transferred under Variable Transfer Plan from source scheme to target scheme shall be calculated using the below formula -

Variable Transfer Plan amount shall be higher of the following:

- 1. Fixed amount specified at the time of enrolment
- Fixed amount to be transferred per installment x number of installments already executed, including the current installment]
 market value of the investments through Variable Transfer Plan in the Target Scheme on the date of transfer.

Illustration:

The process has been explained below through an illustration for calculation of VTP as on the date of 3rd Installment, with the help of the abovementioned formula:

Fixed amount specified at the time of enrolment	Rs.6000			
(A)				
or				
As determined by the formula				
(B) $(6000*3) - 11495 = Rs.6505$

Note: The above example does not contain any TDS / STT deduction. VTP determined will be net of applicable taxes.

3. The minimum amount and tenure of VTP would be as applicable to normal STP (Specified Transaction Period) facility in respective schemes. Frequency of the VTP is mentioned as below:

Particulars	VTP	Minimum no. of installments and
	Transaction	Minimum amount per instalment
	Dates	
Daily	Every	6 installments of Rs. 1000/- each and
	Business	in multiples of Re.0.01/- thereafter

Monthly	Any Date	6 installments of Rs. 1000/- each and
		in multiples of Re.0.01/- thereafter
Quarterly	Any Date	6 installments of Rs.1000/- each and
-	-	in multiples of Re.0.01/- thereafter

- 4. In case of valid VTP enrolment forms received, indicating choice of option other than the growth option in the Target Scheme, it will be deemed as the growth option in the Target Scheme and processed accordingly.
- 5. In case the VTP commencement date is less than 10 calendar days from the date of submission of registration form, the same will commence from the 11th day from the date of receipt of valid registration form. The AMC reserves the right to process the VTP registration request received for a period lesser than 10 calendar days in the interest of unit holders.
- 6. There is no maximum duration for VTP enrollment.
- 7. The first VTP installment will be processed for the fixed installment amount specified by the investor at the time of enrolment. From the second installment onwards, the transfer amount shall be computed as per formula stated above.
- 8. If there is any other financial transaction (Purchase, redemption or switch or Systematic Investment Plan) processed in the target scheme during the tenure of VTP, the VTP will be processed as normal STP for the rest of the installments for a fixed amount, also there will not be any change in number of installments.
- 9. In case of VTP, if four consecutive installments fail, then VTP will be ceased. In case the amount to be invested is not available, the transaction will be rejected. After 4 consecutive rejects, this facility will be cancelled.
- 10. The VTP will be processed subject to the terms, applicable loads (if any), of the Target scheme and Source Scheme.

- 11. An investor can select this facility whereby the investor chooses to transfer on a periodic basis a variable amount from any "Source Scheme" into any "Target Scheme".
- 12. Once the VTP has been stopped, the unit holder needs to provide a new request to start VTP again.
- 13. All other terms & conditions of Systematic Transfer Plan are also applicable to VTP.

SIP Pause Facility:

SIP Pause facility gives option to pause the SIP for a period ranging from 1 month up to 6 months in a respective scheme.

Basic Terms and conditions are as follows:

If the pause period is completed after date of SIP Top Up, then the SIP instalment amount post completion of pause period shall be `6,000/-.
- Incomplete SIP Pause Form in any respect would be liable to be rejected.
- The investor hereby agrees to indemnify and not hold responsible, the AMC and its employees, the R&T agent and the service providers in case his/her bank is not able to effect any of the payment instructions for whatsoever reason.

Smart Facility i.e. Smart Systematic Transfer Plan ("SSTP") – It is a facility wherein the investor(s) of Eligible scheme(s) can opt to transfer a pre-determined sum at defined intervals. The investor would be required to provide a Base SSTP amount. Basis this Base amount, the amount for SSTP, which will be linked to the percentage of Net Equity allocation (equity and equity related securities net of hedged

positions using derivatives) of Kotak Balanced Advantage Fund ("KBAF"), will be calculated.

It could be suitable for investors who are looking to transfer periodically, based on the different market conditions, i.e. either higher, base or lower amount(s).

	(SSTP)	Scheme)	Equity Index schemes of KMMF,	
			Kotak Equity Hybrid Fund and	
			Kotak Multi Asset Allocation	
			Fund.	

Key Features of Smart Facility:

- 1. SSTP is a market linked product.
- For those who wish to avail the said facility in case of existing investors, SSTP Investment form(s) needs to be submitted for each SSTP registration. New investors to fill and submit Investment Application Forms along with SSTP Investment forms.
- 3. Individual Enrolment Form should be filled for each SSTP transaction.
- 4. The details for SSTP are as mentioned below:

S	Facili	Frequenc	Days/Dates	Minimum number of
r.	ty	\mathbf{y}	available	Investments/Transfer
N				s/Withdrawals
0				
1.	SSTP	Monthly	• Any	6
		Or	Business	
		Quarterly	Day	
			(Monday-	
			Friday)	
			• Any	
			Business	
			date from	
			1^{st} to 31^{st}	

- 5. The Base amount for SSTP:
 - The investor has to mandatorily and clearly specify the Base SSTP amount;
 - b) The minimum Base SSTP amount would be the minimum Systematic Transfer Plan (STP)[STP limits

of transferor scheme] amount, as applicable as per the Scheme Information documents of Eligible Scheme(s)

6. Calculation of SSTP amount:

a) The amount to be transferred from the Transferor scheme to Transferee scheme in case of SSTP shall be basis the below mentioned details:

For SSTP					
(A)	(B)	(C)			
Net Equity Allocation of KBAF	Default option	Investor defined Amount			
> 60%	2 times Base SSTP Amount	Investor defined Maximum SSTP Amount			
40%- 60% (Inclusive of 40 and 60)	Base SSTP Amount	Base SSTP Amount			
< 40%	0.5 times Base SSTP Amount	Investor defined Minimum SSTP Amount			

For SSTP:

- If the net equity allocation percentage for KBAF for the trigger date is greater than 60%, then SSTP amount would be twice the Base SSTP amount or Investor defined Maximum SSTP Amount, if specified by the investor.
- If the net equity allocation percentage of KBAF for the trigger date is between 40% and 60% (including 40% and 60%), then Base SSTP amount would be triggered.
- If the net equity allocation percentage of KBAF for the trigger date is less than 40%, then SSTP amount would be half the Base SSTP amount or Investor defined Minimum SSTP Amount, if specified by the investor.
- b) In case of SSTP, the investor has an option to mention the Maximum amount /Minimum amount In case no amount(s) are mentioned by the investor, the amount to be invested/transferred shall be as per the Default option, as per details mentioned under column (B) above.
- c) In case of SSTP, the amount shall be derived based on the Net Equity allocation percentage of KBAF on the Trigger date and not as on the SSTP date. Hence, the SSTP amount will be of T-1 day (i.e. Trigger Date) assuming the instalment is triggered 1 day before the SSTP date.
- d) For SSTP in case if the Minimum amount is below the Minimum SSTP amount of the scheme, then the amount considered would be the minimum SSTP amount of the scheme.
- e) In case of SSTP if the end date is not mentioned/ in case of ambiguity the SSTP shall continue till availability of funds in the source (Transferor) scheme.

- f) In case of SSTP the transaction charge shall be applicable only if the total commitment through SSTP amounts to Rs.10, 000/- & above. In such cases the transaction charge shall be recovered in first 3/4 successful instalments.
- g) In respect of SSTP enrolments made in any of the eligible schemes, the load structure prevalent at the time of enrolment shall be applicable to the investors during the tenure of the SSTP.
- h) In case of SSTP, registration request needs to be submitted to the Computer Age Management Services Limited, Registrar and transfer agent ("RTA") of Kotak Mahindra Mutual Fund (Mutual Fund) /AMC 7 days prior to the date of commencement of SSTP. In case the SSTP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the SSTP registration request received for a period lesser than 7 days in the interest of unit holders.
- 7. The Base SSTP amount, Maximum SSTP amount and Minimum SSTP amount specified by the investor must be in multiples of Re. 1 (whole numbers only, no decimals eg: Rs. 20001, Rs.30015).
- 8. The SSTP shall be applicable for applications routed through Mutual Fund's website www.kotakmf.com and physical applications submitted at specified investor service centers of the RTA.
- In case of first SSTP installment, it shall be processed for the Base SSTP amount as specified by the investor at the time of enrollment, and will not be based on the Net equity allocation percentage of KBAF.
- 10. In case of SSTP, it shall be applicable for both IDCW and growth option for transferor scheme however in case of transferee scheme it shall be applicable only for growth option.
- 11. SSTP will not be available if the folio/PAN is under Lien or marked as frozen on the advice of I.T authorities/Regulatory authorities/Court or any other reason.
- 12. All requests for registration or deactivation of SSTP shall be subject to an advance notice of 7 (seven) calendar days. The same can be done by sending a written request to the RTA's investor service centers.
- 13. In case of SSTP where unit holder has specified Minimum/ Maximum amount as well as ticked the option for Default SSTP, then trigger will be as per the Default SSTP Amount.
- 14. In case of SSTP, if the same is stopped for any reason a new request needs to be provided to re-start SSTP.
- 15. In case of SSTP incorrect, incomplete, ambiguous forms will be liable to be rejected.

- 16. All other terms & conditions of STP of the Eligible schemes would also be applicable to SSTP, unless and otherwise as specifically mentioned above.
- 17. Please refer the Key Information Memorandum and Scheme Information Document of the respective Scheme(s) and Statement of Additional Information for Applicable NAV, Risk Factors, Load Structure and other information on the Scheme(s).

Kotak Mahindra Asset Management Company Limited, reserves the right to add or delete any of the Eligible schemes in the list above. Please read the terms and conditions/ General instructions in the applicable forms before investing.

- The CAS will be generated on monthly basis.
- If there is any transaction in any of the Demat accounts of the investor or in any of his mutual fund folios, depositories shall send the CAS within fifteen days from the month end. In case, there is no transaction in any of the mutual fund folios and demat accounts, then CAS with holding details shall be sent to the investor on half yearly basis.
- The dispatch of CAS by the depositories shall constitute compliance by Kotak AMC/ Kotak Mahindra Mutual Fund with the requirements under Regulation 36(4) of SEBI (Mutual Funds) Regulations, 1996
- Further, a consolidated account statement shall be sent by Depositories every half yearly (September/March), on or before 21st day of succeeding month, providing the following information:
- holding at the end of the six month
- The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods and Services tax (wherever applicable, as per existing rates), operating expenses, etc.

The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in

- 5. Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.
- 6. In case of a specific request is received from the investors, Kotak Mahindra Asset Management Company Ltd./ Kotak Mahindra Mutual Fund will provide the physical account statement to the investors.
- 7. For Unitholders who have provided an e-mail address in KYC records, the CAS will be sent by e-mail.
- 8. Any discrepancy in the Account Statement should be brought to the notice of the Fund/AMC immediately. Contents of the Account

Statement will be deemed to be correct if no error is reported within 30 days from the date of Account Statement.

Half Yearly Account Statement:

- Asset management company will send consolidated account statement every half yearly (September/ March), on or before twenty first day of succeeding month, detailing holding at the end of the six month, across all schemes of all mutual funds, to all such investors in whose folios no transaction has taken place during that period. The Account Statement shall reflect the latest closing balance and value of the Units prior to the date of generation of the account statement.
- The Account Statement shall reflect
- holding at the end of the six month
- The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods and Services tax (wherever applicable, as per existing rates), operating expenses, etc.
- The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.
- The account statements in such cases may be generated and issued along with the Portfolio Statement or Annual Report of the Scheme.

"Transaction" shall include purchase, redemption, switch, Payout of Income Distribution cum capital withdrawal option (IDCW), Reinvestment of Income Distribution cum capital withdrawal option (IDCW), systematic investment plan, systematic withdrawal plan, systematic transfer plan and bonus transactions.

Income Distribution cum capital withdrawal (IDCW) Policy

Growth Option:

Under the Growth option, there will be no distribution of income and the return to investors will be only by way of capital gains, if any, through redemption at applicable NAV of Units held by them.

IDCW Option

Under the IDCW option, the Trustee may at any time decide to distribute by way of IDCW, the surplus by way of realised profit and interest, net of losses, expenses and taxes, if any, to Unitholders if, in the opinion of the Trustee, such surplus is available and adequate for distribution. The Trustee's decision with regard to such availability and adequacy of surplus, rate, timing and frequency of distribution shall be final. The Trustee may or may not distribute surplus, even if available, by way of IDCW.

The IDCW will be paid to only those Unitholders whose names appear on the register of Unitholders of the Scheme / Option at the close of the business hours on the record date, which will be announced in advance. The Fund is required to dispatch IDCW payments within seven working days from the record date. In case the AMC fails to dispatch the IDCW payments within the stipulated time of seven working days, it shall be liable to pay interest to the unit holders at 15% p.a. or such other rate as may be prescribed by SEBI from time to time or such other rate as may be prescribed by SEBI from time to time.

In case of dynamic lien the IDCW may be credited to the financier

The IDCW Option will be available under two sub-options "the Payout Option and the Reinvestment Option.

Payout of IDCW Option: Unitholders will have the option to receive payout of their IDCW by way of IDCW payments or any other means which can be enchased or by way of direct credit into their account.

Reinvestment of IDCW Option: Under the reinvestment option, IDCW amounts will be reinvested in the Reinvestment of IDCW Option at the Applicable NAV announced immediately following the record date.

The requirement of giving notice shall not be applicable for IDCW Option having frequency upto one month.

However, the Trustees reserve the right to introduce new options and /or alter the IDCW payout intervals, frequency, including the day of payout.

When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investor's capital (Equalization Reserve), which is part of sale price that represents realized gains.

Income Distribution cum capital withdrawal (IDCW)

The Income Distribution cum capital withdrawal (IDCW) payments shall be dispatched to the unitholders within seven working days from the record date. IDCW may also be paid to the Unitholder in any other manner viz., through ECS, Direct Credit, IMPS or NEFT in to Bank account, RTGS facility, any other mode allowed by Reserve Bank of India or through Banker's cheque, etc as the AMC may decide, from time to time for the smooth and efficient functioning of the Scheme.

Redemption

The redemption or repurchase proceeds shall be dispatched to the unitholders within three working days from the date of receipt of redemption requests or repurchase requests.

In accordance to Para 14.1 and 14.2 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 and AMFI circular no. AMFI/35P/MEMCOR/74/2022-23 dated January 16, 2023, in exceptional situations mentioned below, the scheme shall be allowed additional timelines for transfer of redemption or repurchase proceeds to the unitholders.

	Payment to NRI/FPI unit holder will be subject to the relevant laws/guidelines of RBI as are applicable from time to time (subject to deduction of tax at source as applicable). The Fund will not be liable for any delays or for any loss on account of exchange fluctuations while converting the rupee amount in US Dollar or any other currency.		
	Note: The mutual fund will rely on the NRI status and his account details as recorded in the depository system. Any changes to the same can be made only through the depository system.		
Delay in payment of redemption / repurchase/IDCW proceeds	The Asset Management Company shall be liable to pay interest to the unitholders at such rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum).		
Unclaimed Redemption/IDCW Amount	In accordance with Para 14.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, the unclaimed Redemption amount and IDCW amount that are currently allowed to be deployed by the Mutual Fund only in call money market or money market Instruments, shall also be allowed to be invested in a separate plan of only Overnight scheme / Liquid scheme / Money Market Mutual Fund scheme floated by Mutual Funds specifically for deployment of the unclaimed amounts. Provided that such schemes where the unclaimed redemption and IDCW amounts are deployed shall be only those Liquid scheme / Money Market Mutual Fund schemes which are placed in A-1 cell (Relatively Low Interest Rate Risk and Relatively Low Credit Risk) of Potential Risk Class matrix as per Para 17.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023. AMCs shall not be permitted to charge any exit load in this plan and TER (Total Expense Ratio) of such plan shall be capped as per the TER of direct plan of such scheme or at 50bps whichever is lower. Investors who claim these amounts during a period of three years from the due date shall be paid initial unclaimed amount along with the income earned on its deployment. Investors who claim these amounts after 3 years, shall be paid initial unclaimed amount along with the income earned on its deployment till the end of the third year. After the third year, the income earned on such unclaimed amounts shall be used for		
	the purpose of investor education. AMC shall play a proactive role in tracing the rightful owner of the unclaimed amounts considering the steps suggested by regulator vide the referred circular.		

Bank A/c Details

As per the directives issued by SEBI it is mandatory for an investor to declare his/her bank account number. To safeguard the interest of Unitholders from loss or theft of their refund orders/redemption cheques, investors are requested to provide their bank details in the Application Form.

In case an existing Unitholder is submitting a request for Change in his Bank Details, he needs to submit a copy of cancelled cheque leaf of the new bank account or Bank statement of the new bank account attested by his banker with seal & signature of banker or letter from the Banker of the investor. In absence of the same, the request for Change in Bank Mandate is liable to be rejected.

Investors have an option of registering their bank accounts, by submitting the necessary forms & documents. At the time of redemption, investors can select the bank account to receive the amount.

Listing

Since the Scheme is open-ended, it is not necessary to list the Units of the Scheme on any exchange. Liquidity is ensured to investors by the purchase and sale of Units from/to the Fund at prices related to the relevant Applicable NAV for the purpose of purchasing or redeeming Units from the Fund. The Trustee, however, has the right to list the Units under the Scheme on any stock exchange/s for better distribution and additional convenience to existing/prospective Unitholders. Even if the Units are listed, the Fund shall continue to offer purchase and redemption facility as specified in this scheme information document. Any listing will come only as an additional facility to investors who wish to use the services of a stock exchange for the purpose of transacting business in the Units of the Scheme.

MF utility services for Investors

Kotak Mahindra Asset Management Company Ltd ("the AMC") has entered into an Agreement with MF Utilities India Private Limited ("MFUI"), a "Category II – Registrar to an Issue" under SEBI (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, for usage of MF Utility ("MFU") - a shared services initiative of various Asset Management Companies, which acts as a transaction aggregation portal for transacting in multiple Schemes of various Mutual Funds with a single form and a single payment instrument.

Accordingly, all financial and non-financial transactions pertaining to Schemes of Kotak Mahindra Mutual Fund can be done through MFU either electronically on www.mfuonline.com as and when such a facility is made available by MFUI or physically through the authorized Points of Service ("POS") of MFUI with effect from the respective dates as published on MFUI website against the POS locations. The list of POS of MFUI is published on the website of MFUI at www.mfuindia.com as may be updated from time to time. The Online Transaction Portal of MFU i.e. www.mfuonline.com and the POS locations of MFUI will be in addition to the existing Official Points of Acceptance ("OPA") of the AMC.

The uniform cut-off time as prescribed by SEBI and as mentioned in the SID / KIM of respective the scheme shall be applicable for applications received on the portal of MFUI i.e. www.mfuonline.com. However, investors should note that transactions on the MFUI portal

shall be subject to the eligibility of the investors, any terms & conditions as stipulated by MFUI / Mutual Fund / the AMC from time to time and any law for the time being in force.

Investors are requested to note that, MFUI will allot a Common Account Number ("CAN"), a single reference number for all investments in the Mutual Fund industry, for transacting in multiple Schemes of various Mutual Funds through MFU and to map existing folios, if any. Investors can create a CAN by submitting the CAN Registration Form (CRF) and necessary documents at the MFUI POS. The AMC and / or its Registrar and Transfer Agent (RTA) shall provide necessary details to MFUI as may be needed for providing the required services to investors / distributors through MFU. Investors are requested to visit the websites of MFUI or the AMC to download the relevant forms.

MF Central

Pursuant to Para 16.6 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 on RTA inter-operable Platform for enhancing investors' experience in Mutual Fund transactions / service requests , the Qualified R&T Agent, Kfin Technologies Private Limited and Computer Age Management Services Limited (CAMS) have jointly developed MFCentral – A digital platform for Mutual Fund investors.

MFCentral is created with an intent to be a one stop portal / mobile app for all Mutual fund investments and service-related needs that significantly reduces the need for submission of physical documents by enabling various digital / phygital services to Mutual fund investors across fund houses subject to applicable T&Cs of the Platform.

MFCentral may be accessed using https://mfcentral.com/ and a Mobile App in future.

Any registered user of MFCentral, requiring submission of physical document as per the requirements of MFCentral, may do so at any of the designated Investor Service centres or collection centres of CAMS or Kfintech.

Restrictions, if any, on the right to freely retain or dispose of units being offered.

The Asset Management Company shall, on production of instrument of transfer together with relevant documents, register the transfer within 30 days from the date of such production. The Units of the Scheme held in the dematerialised form will be fully and freely transferable (subject to lock-in period, if any and subject to lien, if any marked on the units) in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996 as may be amended from time to time and as stated in Para 14.4of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023. Further, for the procedure of release of lien, the investors shall contact their respective DP.

Also, when a person becomes a holder of the units by operation of law or upon enforcement of pledge, then the AMC shall, subject to production/submission of such satisfactory evidence, which in its opinion is sufficient, effect the transfer, if the intended transferee is otherwise eligible to hold the units.

Central KYC (CKYC)

The Government of India has authorized the Central Registry of Securitization and Asset Reconstruction and Security interest of India (CERSAI, an independent body), to perform the function of Central KYC Records Registry including receiving, storing, safeguarding and retrieving KYC records in digital form.

Accordingly, in line with SEBI circular nos. CIR/MIRSD/66/2016 dated July 21, 2016 and CIR/MIRSD/120/2016 dated November 10, 2016 on Operationalization of Central KYC (CKYC), read with AMFI Best Practice Guidelines circular no. 68/2016-17 dated December 22, 2016, new individual investors investing into the Fund are requested to note the following changes, with effect from February 1, 2017.

- 1. New individual investors who have never done KYC under KRA (KYC Registration Agency) regime and whose KYC is not registered or verified in the KRA system, will be required to fill the new CKYC form while investing with the Fund.
- 2. If any new individual investor uses the old KRA KYC form which does not have all the information needed for registration with CKYC, such investor will be required to either fill the new CKYC form or provide the missing/additional information using the Supplementary CKYC form.

Investors who have already completed CKYC and have a KYC Identification Number (KIN) from the CKYC Registry can invest in schemes of the Fund quoting their 14 digit KIN in the application form. Further, in case the investor's PAN is not updated in CKYC system, a self-certified copy of PAN Card will need to be provided.

This is subject to client completing the KYC requirements as per SEBI in addition to CKYC.

Foreign Account Tax Compliance

FATCA is an acronym for Foreign Account Tax Compliance Act ("FATCA"), a United States Federal law to increase compliance by US taxpayers and is intended to bolster efforts to prevent tax evasion by the US taxpayers with offshore investments. The Government of India and the United States of America (US) have reached an agreement in substance on the terms of an Inter-Governmental Agreement (IGA) and India is now treated as having an IGA in effect from April 11, 2014. The AMC/Fund is classified as a 'Foreign Financial Institution' (Investment Entity as per Annexure 1(i)) under the FATCA provisions. In accordance with FATCA provisions, the AMC/Mutual Fund will be required to undertake due diligence process and identify US reportable accounts and collect such information/documentary evidences of the US and/or non-US status of its investors/Unit holders and disclose such information (through its agents or service providers) as far as may be legally permitted about the holdings, investment returns and/or to US Internal Revenue Service (IRS) or the Indian Tax Authorities, as the case may be for the purpose of onward transmission to the IRS pursuant to the new reporting regime under FATCA.

D. Computation of NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

The Fund shall value its investments according to the valuation norms (Valuation Policy includes computation of NAV in case of investment in foreign securities), as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information. NAV of Units under the Scheme will be calculated as shown below:

Market or Fair Value of Current assets including
NAV= Scheme's investments + Accrued Income - provisions including accrued expenses

No. of Units outstanding under the Scheme/Option.

NAV for the Scheme and the repurchase prices of the Units will be calculated and announced at the close of each Business Day. The NAV shall be computed upto four decimals. The NAV of Direct Plan will be different than the NAV of Regular Plan.

Computation of NAV will be done after taking into account IDCW declared, if any, and the distribution tax thereon, if applicable. The income earned and the profits realized in respect of the Units remain invested and are reflected in the NAV of the Units.

Investments in units of CDMDF shall be valued based on the last declared net asset value as disclosed on the website of the CDMDF Fund.

Illustration for Computation of NAV:

NAV=	Market or Fair Value of Scheme's investments	Current assets including Accrued Income	Current Liabilities and provisions including accrued expenses

##With reference to SEBI's letter no. SEBI/HO/ IMD/ IMD-SEC-3/ P/ OW/ 2023/ 5823/ 1 dated February 24, 2023, and AMFI Circular No. CIR/ ARN-23/ 2022-23 March 07, 2023, the B-30 incentive structure for new inflows has been kept in abeyance with effect from March 01, 2023 till the incentive structure is appropriately re-instated by SEBI with necessary safeguards.

Expense Structure for Direct Plan - The annual recurring expenses will be within the limits specified under the SEBI (Mutual Funds) Regulations, 1996.

Commission/ Distribution expenses will not be charged in case of Direct Plan. The TER of Direct Plan will be lower than Regular Plan.

In terms of the Para 10.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, all fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan.

However, Direct Plan shall have a lower expense ratio than the Regular Plan. The expenses would exclude distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

Additional expenses which may be charged to the Schemes:

The following additional expenses may be charged to the Schemes under Regulation 52 (6A), namely-

- Brokerage and transaction cost incurred for the purpose of execution shall be charged to the scheme as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Finds) Regulations, 1996.
- Expenses not exceeding of 0.30 % of daily net assets, if the new inflows from beyond top 30 cities are at least:
 - (i) 30 % of gross new inflows in the scheme; or
 - (ii) 15 % of the average assets under management (year to date) of the scheme; whichever is higher. Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Provided further that the additional TER can be charged based on inflows only from 'retail investors' (Para 10.1.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, has defined that inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investor") from beyond top 30 cities.

Provided that the additional commission for beyond top 30 cities shall be paid as trail only.

In case inflows from beyond top 30 cities is less than the higher of (i) or (ii) above, additional TER on daily net assets of the scheme shall be charged as follows:

Daily net assets X 30 basis points X New inflows from individual investors from beyond top 30 cities

365* X Higher of (i) or (ii) above

• Clause 4 of Seventh Schedule to SEBI (Mutual Funds) Regulations, 1996 which restricts investments in mutual fund units upto 5% of net assets and prohibits charging of fees, shall not be applicable to investments in mutual funds in foreign countries made in accordance with guidelines as per SEBI circular no. SEBI/IMD/CIR No.7/104753/07 dated September 20, 2007. However, the management fees and other expenses charged by the mutual fund(s) in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund scheme shall not exceed the total limits on expenses as prescribed under Regulation 52(6). Where the scheme is investing only a part of the net assets in the overseas mutual fund(s), the same principle shall be applicable for that part of investment.

TER for the Segregated Portfolio

- AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER
 (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery
 of the investments in segregated portfolio.
- The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
- The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
- The costs related to segregated portfolio shall in no case be charged to the main portfolio.

^{* 366,} wherever applicable.

Goods and Services tax:

Goods and Services tax on investment and advisory fees may be charged to the scheme in addition to the maximum limit of TER as prescribed in Regulation 52(6)(c). Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per Regulation 52.

The aforesaid estimates are made in good faith by the Investment Manager and are subject to change inter se among the various heads of expenses and between the Plans. It may also be noted that the total expenses of the Plans will also be subject to change within the overall limits of expenses under Regulation 52. Actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the Fund, however the expenses charged will not exceed the statutory limit prescribed by the Regulations There will be no sub limit on management fee, and it shall be within the overall TER specified above.

For the actual current expenses being charged, the investor may refer to the website of the mutual fund. The fund shall update the current expense ratios on the website kotakmf.com) at least three working days prior to the effective date of the change. The web link for TER is https://www.kotakmf.com/Information/investor-service

C. Load structure

Load is an amount which is paid by the investor to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of kotakmf.com or may call at 18003091490 or your distributor.

Entry Load: NIL

In terms of Para 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 no entry load will be charged on purchase / additional purchase / switch-in. The commission as specified in the aforesaid circular, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

Exit Load: NIL

Any exit load charged (net off Goods and Services tax, if any) shall be credited back to the Scheme.

No exit load will be chargeable in case of switches made between different plans/options of the scheme.

Units issued on reinvestment of IDCW shall not be subject to entry and exit load

* In terms of Para 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, no entry load will be charged on purchase / additional purchase / switch-in. The commission as specified in aforesaid circular, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

** Any exit load charged (net off Goods and Services tax, if any) shall be credited back to the Scheme.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated. In case of changes in load structure the addendum carrying the latest applicable load structure shall be attached to all KIM and SID already in stock till it is updated.

Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service Centers. Information on applicability of loads will also be provided in the Account Statement.

As required under the Regulations, the fund shall ensure that the repurchase price of an open ended scheme is not lower than 95% of the Net Asset Value.

The investor is requested to check the prevailing load structure of the scheme before investing.

For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.

D. Waiver of Load for Direct Applications

Pursuant to Para 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, no entry load shall be charged for all mutual fund schemes.

Therefore, the procedure for waiver of load for direct applications is no longer applicable.
